Connect With Global PayTech Services For Expansion, Sales and Market Access

CONEXUS
CONNECTIONS

Conexus Connections creates valuable connections between iGaming and PayTech businesses, transcending geographical limitations and facilitating new opportunities for expansion, sales, and market penetration. We're specialists in orchestrating iGaming clients with global payments, electronic money institutions, banking, foreign exchange, payment processing, payment gateways, card programme managers, crypto exchanges, private banks, card issuance, and RegTech solutions. We have a significant roster of connections and suppliers.

Let's Accelerate Your Global iGaming Growth

Conexus Connections supports iGaming merchants to move money or make domestic / cross-border transactions by facilitating access to a global network of PayTech providers. iGaming clients already utilising Conexus Connections' marketplace include Entain, CoolBet, DafaBet, Coin Gaming, Kindred, Betsson, to name but a few.

Cost-reductions are a core deliverable of our service offering. With over two decades of PayTech industry expertise, contacts, and resources, our partners can experience significant value addition to their clients or to their own business.

Our value proposition includes: banking, with a number of regulated EMI's, where you have dedicated IBANs in your own name for facilitation of multi-currency 1st and 3rd party payments in and

out; card processing via Visa / Mastercard in both FIAT and Crypto; card issuance – we can offer debit and credit cards globally; crypto on/off ramp.

Additional services available through Conexus Connections include: payments strategy, including function design, market research, optimisation and assessments; vendor selection based on payments strategy and requirements; reconciliation as a service; and payments management including analytics, reporting and dashboards.

We offer a unique avenue for collaboration, orchestration, and mutual growth. As a partner, individuals and entities can forge strategic alliances that can lead to substantial benefits for all parties involved.
