**Introducing RaceConnect - our real-time virtual tracking app**

Our technology partner has just released the real-time virtual tracking app RaceConnect, that is directly integrated with Walk the Talk. Simply download the app, login and start your race session on race day - and walk!
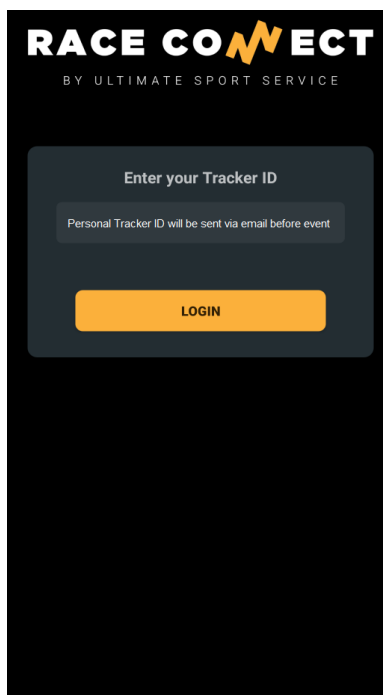

When using RaceConnect there is no need for 3rd party platforms. RaceConnect uploads your time and distance automatically and it is simple to use.

RaceConnect (iPhone and Android) can be downloaded App Store here and Google Play here.

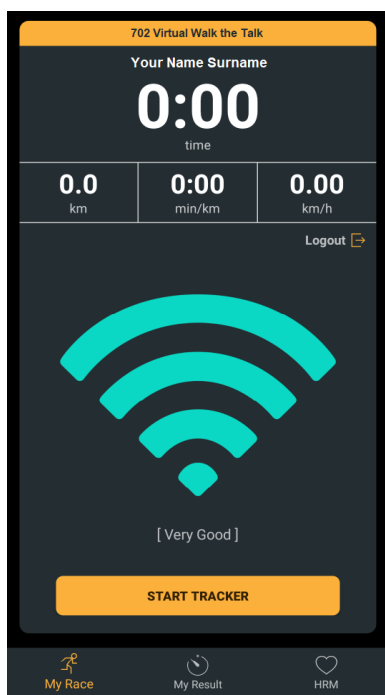

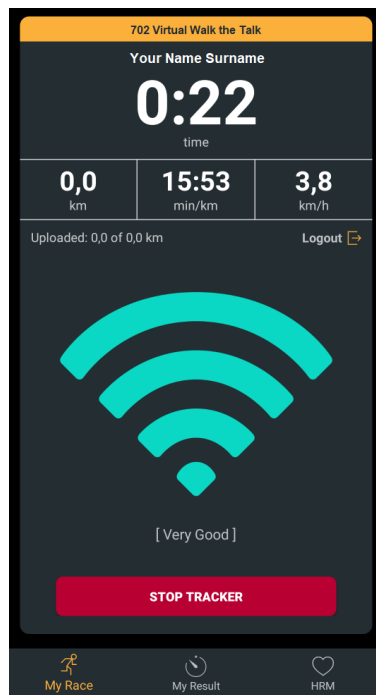

Timing, race tracking and event safety

When logging in, please use your personal Tracker ID which will be provided before the race via email (this is your personal code to login to the RaceConnect app virtual race tracker and must not be shared with anyone else).
