

MOBILE VALET SOLUTION POWERED BY SMS VALET

FAST

FLEXIBLE

CREDIBLE

Engaged "Valet" Parking Experience

TIBA's Mobile Valet, Powered by SMS Valet, brings Best-In-Class Valet solutions to market.

TIBA's reputation of being **Fast. Flexible. Credible.** now meets **Ticketless. App-free. Simple.** for all your Valet system needs.

TIBA Parking Systems is pleased to introduce to Parking Operators and Asset Owners the addition of a comprehensive Mobile Valet Solution. Now, with TIBA's integrated Mobile Valet solution, you have even more ways to deliver an Engaged Parking Experience. TIBA's Mobile Valet Solution, allows operators to maximize revenue while providing a best-in-class valet experience.

TIBA is partnering with TEZ (a mobile technology leader) to leverage its industry leading technology, and power TIBA's valet solution as part of an end-to-end PARCS portfolio. This simple, ticketless system

is a fully cloud-based management platform which utilizes advanced Near Field Communications (NFC) to provide a "ticketless" valet solution. This advanced technology also provides continued communication between the valet parking operator and their customer mobile devices throughout the duration of their stay.

FEATURES*

- Completely ticketless – mobile device serves as the guest's ticket
- Ultimate configurability and flexibility based on facility dynamics and valet needs
- Advanced VIP program for white glove valet experience
- Extensive real-time operational and revenue visibility
- Detailed damage tracking to eliminate "finger pointing"
- Seamlessly integrated with TIBA Parking equipment and Smart Park Management Platform

* Not all features are available or standard in all regions. Check with your local TIBA representative for availability.

Key Valet Integration Components:

As part of the partnership with the SMS Valet, we have developed extensive integration with the TIBA PARCS system to ensure wide-ranging flexibility based on facility needs and first-rate customer experience across PARCS and Valet, including:

- Access of valet customers' vehicles into a self-parking-controlled garage – unified, single record of runner, vehicle license plate and valet ticket
- Multiple payment options – payment with coins, cash or credit card at a pay-on-foot station, cashier station or mobile device
- Single validation platform – contract tenants can validate both their transient parkers and valet visitor tickets through easy-to-use tenant portal
