

DROP THE GATE ON TRADITIONAL PARKING & MOBILITY SOLUTIONS

Are you...

- A cash conscious asset owner that must ensure high levels of customer experience?
- An owner who may consider divesting the asset in 2-3 years and looking to drive up value?
- An operator concerned with staying current with technology innovation to drive incremental revenue opportunity?
- An operator looking to simplify management contracts with ownership for greater terms and revenue share flexibility?

If you fall in to one or more of these categories, now is the time to find out how TIBA's **Parking-as-a-Service (PaaS)** could be the perfect option for you.

Our PaaS offering is a simple, customer-friendly purchase program that takes the complexity of capital expenditures (CapEx), financing headaches, software costs and updates, deployment expenses, service plans, and support fees out of the Parking Access and Revenue Control System (PARCS) investment equation.

Capitalize today on best-in-class TIBA Solutions with the most flexible offerings and purchase options available!
