

“Does TIBA have a way for a limited use card access parker to make a payment at a Pay-On-Foot Station?”

Of Course We Do!

Another TIBA Parking commitment to creating an Engaged Parking Experience is to remove friction in the transaction process, and enable seamless and easy-to-use processes for the parker. We believe for parking card holders, a forgettable parking experience is the best experience.

For multiple types of access card parkers, TIBA provides an easy method to make payments at the Pay-on-Foot stations in the facility. Simply holding up their access card to the Pay-on-Foot station will bring the parkers database record to the screen. From this point, a monthly contract parker can make payment for the next month — automatically extending the “paid through date” in the software as well. Limited use/stored value parkers can easily view their existing balance, and add value to their card by making payment at the POF. These processes can be quicky and easily done through both the TIBA cash/credit card pay stations and/or credit card only pay stations.

Simple, efficient way to provide superior service to multiple types of contract parkers:

- Easy, automated payment at central Pay-on-Foot Stations — 24 hour/7 days
- No need for management staff to take payments/update record
- Ability to add user-selected value, make partial payments, and/or pay card balances in full

Fast. Flexible. Credible.
It's the TIBA way!

Contact TIBA today to see how you can achieve an Engaged Parking Experience!
