

DRONE SPECIFICATIONS

MEASUREMENTS

Length.....	1000 mm
Width.....	1000 mm
Height.....	300 mm
Weight.....	3 kg

FLIGHT FEATURES

Flight time.....	15 minutes
Takeoff & Landing.....	Automatic
In case of control signal loss.....	Auto-return

OUR DRONES COME EQUIPPED WITH:

GYROSCOPE

Measures drone movements in relation to its rotation and angle against any surface

3D CAMERAS

Maps the shape of any surface from the deepest tunnel to the largest bodied aircraft

NAVIGATION CAMERAS

Measure displacement of patterns in 3D space. Displacement of patterns is used for precision calculations of drone movement.

DATA COLLECTION CAMERAS

Receive continuous data feed of the aircraft surface with precision location information.
