TEAMWEAR

For world champions and everyday heroes

Craft athletes work out for freedom, for happiness and for progress – to improve quality of life. We are people of all ages and genders who prioritize physical movement and appreciate design and functionality. We are all athletes, from the everyday active to the world record holder.

Jonathan David
KAA Gent

Break free.

Concept Overview

Pro Control

High-performance materials, ergonomic design and correct detail give you full control in every step, in all match situations.

Progress

Stylish elegance creative retro feeling and extremely good moisture transport paves the way for success.

Squad

Good moisture transport, good stretch and classic design provides the right conditions for optimal performance.

Pro Control Impact

Premium concept with high-functional materials for top-level sports. Fits racket sports, volleyball and field hockey.

Rush

Lightweight, functional and ergonomically shaped garments for optimal freedom of movement. Fits gymnastics and track and field.

Community

A contemporary concept with athletic fit and sporty looks designed for relaxed moments between workouts and competitions.

V150 Engineered

V150 Engineered

MEN	1908265	EU 39 ½ - 50 ½, UK 6-15	€ 99,95
WOMEN	1908264	EU 35 ½ - 42, UK 3-8	€ 99,95

Designed for the 10k run, V150 Engineered comes with a fully engineered mesh upper for optimal freedom of movement, comfort and performance. V Energy Foam in the midsole's forefoot area provides high-caliber energy return, elevating your stride and giving that extra push to help you reach your goals. The shoe is built on a last design that follows the natural contours of the foot and comes with flexibility in the right areas to allow the foot muscles to work and perform as they are intended to. Furthermore, V150 Engineered features neutral stability to offer the right level of motion control for runners with normal pronation or a neutral foot movement.

- Lightweight engineered mesh upper ensures great breathability
- V Energy Foam in the midsole's forefoot area provides high-caliber energy return
- Last design that follows the natural contours of the foot
- Neutral stability for optimal motion control for runners with normal pronation
- V-flex zones in the outer sole increase stability and provide natural flexibility
- Vibram rubber outsole offers superior grip on wet and dry surfaces
- Anatomical shape
- Drop: 6 mm

Material: Upper Mesh: 60% Polyester 40% Polyamid; Insole: EVA with single mesh; Lining: 100% Polyester; Outsole: 100% Rubber; Midsole: 100% EVA; Insole: EVA with single mesh

Custom. Made by you.

Craft has developed functional sportswear for more than 30 years. Throughout the years we have been working actively with professional athletes to understand the individual requirements - from elite riders, to athletes. You can benefit from this expertise, your club or company.

You can design your very own club clothes - in your own colors and with your own logos. All our products have the same high quality as the regular collection - optimal moisture transport, freedom of movement and perfect fit.

In cooperation with our graphic team, which helps you throughout the process, we create a unique design for your club or company. After your approval, the design will be sent to our factory. Delivery time approximately 5-12 weeks.

The Craft-principle

An intensive training session will result in the body producing a considerable amount of sweat. This is just how it should be and a confirmation that you are pushing your limits. If you are not wearing functional clothes, the sweat will remain in place and block the pores, causing your body heat to rise. Eventually the clothes will turn into a damp, cold and heavy “envelope”, relentlessly hampering your performance. If you are wearing functional clothes, however, the skin will stay dry and you will be able to perform at an ideal working temperature. Craft’s functional clothes, in up to three layers, create a perfect microclimate and provide the basis for optimal performance. Each layer is equally important and complements the rest of the chain.

Baselayer

Baselayer that efficiently transports moisture away from the skin and distributes it on the outside of the garment, where it either evaporates or is passed on to the next layer. For optimal performance and comfort, craft baselayer should always be worn underneath your outer layers, regardless of weather conditions.

Midlayer

Craft midlayer provides insulation and warmth while transporting moisture and excess heat to the next layer or into the surrounding air. When the thermometer creeps downward, this layer enables you to retain valuable body heat without reducing your freedom of movement.

Protection Layer

The third and outermost layer is your shield against the elements and provides comfort and performance no matter the conditions. Transcending the laws of logic, craft protection layer protects against rain, wind and cold at the same time as it releases surplus heat and moisture from the layers underneath.

Size guide

Use the chart below to determine your size. If you're on the borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit. If your measurements for chest and waist correspond to two different suggested sizes, order the size indicated by your chest measurement.

How to measure yourself

MEN

A. CHEST

Wrap a tape measure evenly around the fullest part around the chest under your arms.

B. WAIST

Wrap a measure tape around your natural waistline.

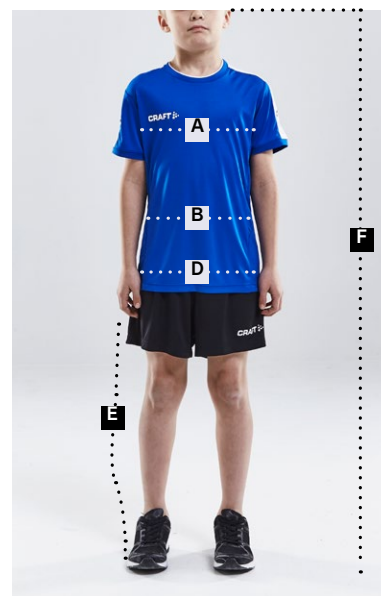

WOMEN

C. SHOULDER AND SLEEVE LENGTH

Measure from the lowest part of the neck, over the tip of the shoulder and down the outside of the arm, past the elbow and to the wrist. Keep the arm slightly bent.

D. SEAT

Standing with your feet together, measure around the fullest part of your hips.

JUNIOR

E. INSIDE OF LEG

Standing with your feet together, measure from the crotch all the way down to the floor. Don't forget to stand as straight as possible. You may have to ask a friend to help you.

F. LENGTH

The total length of your body.

Size guide shoes

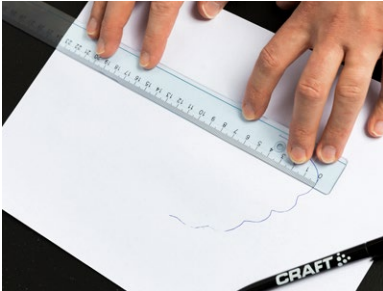

How to measure your feet

Step 1
Stand up straight on a hard surface with your heel against the wall and a piece of blank paper taped to the floor.

Step 2
Have someone mark the longest part of your foot (referred to as heel-to-toe length) on the paper with a pen or pencil, or measure yourself if necessary. Repeat with the other foot, as sizes may be different on left and right foot.

Step 3
Use a ruler to measure the heel-to-toe length you marked for each foot.

Why should you use Craft as a supplier?

- Multisport brand with a Swedish heritage.
- Complete collections for women, men and junior.
- Timeless design.
- Centralized warehouse with big stock.
- A consistently high level of service.
- Access to Crafts' other assortment with such as baselayers and accessories.
- New Wave Group - a group with multifaceted knowledge and wide range.

But perhaps most importantly: Playing with us brings security to know that optimal performance, clearer identity and reinforcement of club feel are always at your fingertips. All days all year round.
