Our process

Consultant Selection

Every consultant undergoes a rigorous interview process to ensure their skills and abilities match project needs.

Needs Assessment

Our team conducts a detailed analysis of your challenges, providing a tailored proposal that addresses your objectives and requirements.

Solution Development

Together, we craft a project specification, ensuring alignment with your time and budgetary considerations.

Project Supervision

A dedicated project manager oversees every phase, ensuring the highest quality standards and strict adherence to deadlines.

Responsibility

We develop a clear plan, objectives, and budget to best meet your expectations, supporting you throughout the entire study

Proximity

Our consultants rely on our 18 research centers and their 231 research professors, as well as the resources of PSL University, ranked the #1 French university (QS 2022)

Excellence

With 44 years of experience, JuMP continuously reinvents and surpasses itself to strive for the excellence so deeply valued by École des Mines de Paris

Team Spirit

JuMP is a highly motivated and rigorously selected team, trained over 8 months and fully committed to investing in your success

They entrusted us

M. MEYERFIELD, DIRECTOR OF ENGINEERING, EDF WATER & ENVIRONMENT DIVISION

"We engaged JuMP for a strategic analysis on the competitive bidding of hydroelectric concessions.

The reason for our choice? Their remarkable responsiveness and strict adherence to deadlines.

We wholeheartedly recommend this outstanding Junior-Enterprise."
