A MESSAGE FROM **FRANK VANDERSLOOT**

Over the years, I have talked to many who say they are surprised at Melaleuca's unprecedented rise in the marketplace. They often ask what the secret is to our success. The answer is simply that we have much better products than the grocery store brands. People want to live healthier, longer, and more vibrant lives. They find Melaleuca products are a great asset in achieving those goals. Melaleuca is quickly becoming the world leader in quality wellness products.

The reason hundreds of thousands of families are choosing Melaleuca products over the grocery store brands is quite simple. Many manufacturers are yielding to the tremendous pressures in today's marketplace to cut prices and therefore cut quality. Wal-Mart and the other national chains control the distribution channels. Even companies like Procter & Gamble are placed under tremendous pressure to cut prices in order to get shelf space in the stores. They are forced to lower their price on the one hand and to maintain profit margins on the other. The only answer for these manufacturers is to cut costs by using cheaper ingredients or diluting their products with cheap fillers such as water. The trend for many manufacturers to dilute products has gotten so bad that Wal-Mart announced that regardless of the price pressures they put on manufacturers, Wal-Mart would not carry any laundry products with less than a 2x concentration, which is twice as concentrated as these products were previously. Procter & Gamble responded by finally bringing its products (like Tide®) up to the minimum 2x standard and advertising their "improvement" on national TV. Quite frankly, we are not very impressed. Melaleuca's products have always been more concentrated than Wal-Mart's new "standard." In fact, Melaleuca's MelaPower was at 3x concentration for more than 20 years and it's now concentrated at 6x.

The demand for these superior products makes building a Melaleuca business even more profitable and more rewarding. This brings up another good reason for you to buy Melaleuca products. Because when you purchase Melaleuca products, you are not buying from the wealthy owners of Wal-Mart, Lever Brothers, or Johnson & Johnson. You are actually buying from the family or friend that introduced you to Melaleuca. In other words, instead of buying from the corporate giants, you are buying from "the little guy." In most cases it is from someone you know.

Almost all of our 450 products are significantly superior in effectiveness, quality, and safety to any of our competitors in the marketplace. There are hundreds of very good reasons to choose our products over the grocery store brands. Reducing costs by diluting products with water or other fillers is not the only way that the national brands violate their customers' trust. Compromising quality ingredients to save a buck is also prevalent in many of the grocery store brands. When people are dealing with their health, they don't want to make compromises. And they know that Melaleuca will never compromise on effectiveness or safety. Because of the constant pressures of the mass manufacturers to lower price and quality, the demand for Melaleuca's superior and far more effective products is on the rise.

So thank you for your loyalty to Melaleuca's wellness products. We promise to keep our commitment to always provide the best so you can have a healthier, longer, and more vibrant life.

CEO, MELALEUCA

Whether you're new to Melaleuca or you've been here for years, you can get the most out of your Melaleuca Preferred Customer membership with Learn to Earn.

First five months: learn to earn.

When you enroll as a Preferred Customer, you can earn Loyalty Shopping Dollars by watching short online videos that further introduce you to Melaleuca and Melaleuca products. Some videos are worth \$5, others \$10—and you can earn up to \$100 in your first five months. You can start earning Loyalty Shopping Dollars by watching videos in your first month of enrollment. Dollars build up in your Loyalty Shopping Dollars account starting in month two, and you can use them whenever you shop. Products purchased with Loyalty Shopping Dollars do not count toward your monthly Product Point commitment.

Month six and beyond: earn up to 15%.

Every month, you can continue to earn up to 15% on every order you place. To earn the maximum 15%, all you have to do is place your order online before the 20th and watch videos to activate your Loyalty Shopping Dollars. This happens automatically for customers who were enrolled after January 1, 2014. Customers who enrolled before then can earn 5% or 10% depending on when and how they order in the month. They can upgrade to earn the full 15% by visiting Melaleuca.com/LearnToEarn.

Earn Loyalty Shopping Dollars anytime online, and only through the 15th when ordering by phone.

Oligo® maximizes the benefits of your nutritional supplements to ensure you get the nutrition you need to make the most of every moment. It's the best for you, so you can be your best for him.*

*Oligo is a patented technology that works Just Like Nature® to help ensure the nutrients listed on the label actually make it into your body.**

U.S. Patent Nos. 8,273,393 and 8,697,158

Why vitamins and minerals?

- Your body can't produce them, so they must be obtained from your diet.
- Your body cannot store most vitamins and minerals, so you need replenishment throughout the day.
- Deficiencies today can hurt tomorrow. You may not feel a difference if you skip a few days, but you are jeopardizing long-term health benefits.

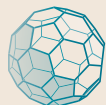

The science behind the “Oligo feeling.”

Over the years, we’ve received hundreds and thousands of comments from customers who have described the increased energy and vigor they feel after using supplements powered by Oligo technology. The “Oligo feeling” is no accident. It’s the result of years of research and breakthrough science. Here’s how Oligo works:

Superior absorption.*

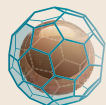

Oligo was created to be Just Like Nature.® Oligo binds minerals to organic compounds (amino acids and oligofructose) to mirror the way they are found in plants to maximize solubility. In fact, **Oligo minerals are scientifically proven to provide up to four times greater absorption** than the minerals in leading grocery store brands.*

Proteins and Fibers
(Amino Acids and Oligofructose)

(Mineral Bound Just Like Nature®)

Reducing free radicals.*

Minerals in traditional supplements can also trigger massive free radical activity during digestion. These free radicals may cancel out the benefits of antioxidants like vitamins C and E. Even more worrying, these free radicals spread quickly through the entire body where they can do more harm. Oligo minerals are different. In fact, studies have shown that **Oligo reduces free radical activity up to five times better than the leading brands.**†

† When tested against the sulfate, gluconate, oxide, and fumarate forms of copper, iron, manganese, and zinc (the forms commonly used by almost all commercially marketed nutritional supplements) at intestinal conditions.

Basic nutrition for better health.*

Vitality Multivitamin & Mineral offers optimal levels of essential nutrients for truly better health. It’s the only multivitamin in the world powered by Oligo to keep nutrients in a form your body can easily use. But the biggest difference comes from the way you’ll feel. You’ll never go without it again. Vitality Multivitamin & Mineral is also available in each of the Peak Performance Packs* (see page 11).

GO

There are many different enzymes at play during digestion, and each works only on a certain substance. If any are out of balance, you'll likely experience digestive discomfort.

The Digestion Process

Digestion starts while you chew your food as your saliva, which contains the enzyme amylase, begins to break down carbohydrates.

Once in the stomach, protease enzymes tackle proteins. From there, food passes into the small intestine where a variety of enzymes break down dairy lactase, plant fibers, proteins, fruit pectin, carbohydrates, and many kinds of sugars.

In the small intestine, micronutrients are absorbed into your bloodstream.

Did you know?

- 90% of digestion takes place in the small intestine.
- The pH levels in your digestive tract vary from a highly acidic 1.5 to an alkaline 8.5.
- Good Zymes has a proprietary blend of 18 enzymes that work within your body's extreme pH variations to help you digest sugars, dairy, protein, fats, plant fibers, legumes, oils, and more.

10 billion ways to support your vitality.*

A healthy digestive tract contributes to immune health as well as overall health. Florify contains an incredible 10 billion colonies of flora from seven different strains—plus prebiotics—to support digestive health while helping optimize your immune system. Better bone health with K2-D3 *and* Vitality Calcium Complete.

Get the benefits of calcium while helping support vascular and bone health.*

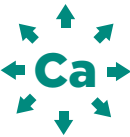

Vitality Calcium Complete is powered by Oligo® to deliver supportive amounts of minerals from the best possible sources, while K2-D3 helps your body use calcium in the right way.*

Calcium is essential to optimal bone health as well as the proper function of the heart and nerves. Along with calcium, you need other vitamins to help optimize calcium delivery to where your body needs it most. Vitamin D3 helps your body absorb calcium into the bloodstream where it can support vascular health, and vitamin K2 redirects calcium from the bloodstream to your bones and teeth.*

When taken together, Vitality Calcium Complete and K2-D3 help ensure you have the calcium your body needs—and a way to use it.* K2-D3 is also available as part of the *Peak Performance Bone & Joint, Heart Health, and Total Health* packs (see page 11).

Omega-3s: the supernutrient you aren't getting enough of.

From fetal development to old age, omega-3s are essential at every stage of life. Unfortunately, omega-3s have all but disappeared from the modern diet.

Omega-3s are a family of unsaturated fatty acids critical for brain, eye, and cardiovascular support. But our bodies can't produce these essential fats. While seafood and marine fish are rich sources of the most beneficial omega-3s, the average Western diet falls short of the daily recommended amounts of this supernutrient.

Recommended amount of omega-3s per day[†]

Healthy adults	1,000–3,000 mg
To help maintain a healthy heart	2,000–4,000 mg
To help maintain healthy cognitive function	2,000–4,000 mg
Prenatal/nursing mothers	1,400 mg
Healthy children	500–1,000 mg

[†] These doses are based on recommendations from the American Heart Association as well as scientific research, publications, traditional use, or expert opinion. Some people are sensitive to omega-3s at higher levels. Individuals with health concerns should consult their physician before taking any dietary supplements.

Nurture your baby nature's way.

- Ideal for pregnant and nursing women*
- DHA to EPA ratio supports healthy development of baby's brain, eyes, and nervous system*
- Sourced from pure coldwater fish*
- A great way to keep minds healthy and sharp*

Prenatal Omegas-3 is also available as part of the Prenatal Bundle (see page 27).

Nature's solutions to keep your system running smoothly.

ProvexCV naturally increases your body's nitric oxide generation. Research has shown that nitric oxide relaxes blood vessels, increasing oxygen and blood flow, helping to maintain the efficiency of your cardiovascular system.*

The *ProvexCV* advantage:

- Helps maintain proper blood vessel function*
- Helps improve oxygen and blood flow*
- Supports high-intensity activity*
- Helps maintain healthy blood pressure levels in healthy individuals*

Naturally optimize your cardiovascular system.*

ProvexCV has taken the humble grape and turned it into a supercharged heart protector that supports your blood vessels and arterial health. It contains a patented blend of grape skin and seed plus resveratrol, quercetin, green tea extract, and bromelain to promote and protect circulatory function, no matter what stage of life you're in. *ProvexCV* is also available in each of the *Peak Performance* packs (see page 11).*

When it comes to vitality, every cell matters.

Your body is constantly producing and expending energy, from your beating heart and expanding lungs to nerve impulses sending messages. Your body gets this energy from the “power generators” of cells—the mitochondria. Coenzyme Q10 (CoQ10) is an antioxidant found in nearly every cell that helps support the mitochondria’s function of producing energy. The hardest-working cells in the body, such as those in the heart, have the highest concentration of mitochondria and rely on constant energy production, but aging and nutritional deficiencies affect your body’s ability to produce adequate energy.

CoQ10+ has a precise ratio of CoQ10, tocotrienols, and alpha lipoic acid that creates a synergistic effect in your body, providing the fuel that high-energy organs need and increasing protection against free radical exposure. CoQ10+ is also available as part of the *Peak Performance Heart Health* and *Total Health* packs (see page 11).*

Nature’s answer to cholesterol.

Phytomega contains phytosterols that can block intestinal absorption sites and take up to 10 times longer to absorb than cholesterol—naturally reducing the amount of cholesterol you absorb. *Phytomega* offers a full, research-recommended 2,000 mg of phytosterols, plus it adds CoQ10 and alpha lipoic acid to help heart cells generate energy. *Phytomega* is also available as part of the *Peak Performance Heart Health* pack (see page 11).*

The Phytomega advantage:

- Naturally blocks cholesterol absorption*
- Helps lower cholesterol**
- Helps reduce triglycerides**
- May reduce the risk of heart disease by lowering cholesterol***

The precise ratio of CoQ10, tocotrienols, and alpha lipoic acid in CoQ10+:

- Creates a synergistic effect in your body for more energy*
- Offers increased protection against free radical exposure*
- Fuels high-energy organs*
- Helps fill the gap in your daily diet*

* Supportive but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease. A daily dose of *Phytomega* (4 softgels) supplies 550 mg of EPA and DHA.

** Foods and supplements containing at least 650 mg per serving of plant sterol esters, eaten twice a day with meals for a daily total intake of at least 1,300 mg, as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease. A daily dose of *Phytomega* (4 softgels) supplies at least 2,000 mg of plant sterol esters.

9 FACTS ABOUT INFLAMMATION IN HEALTHY INDIVIDUALS

1. Inflammation is part of your body's immune system.
2. Inflammation is one way your body promotes recovery after intense activity, injury, and outside threats like germs and bacteria.
3. Physical and mental stress increase your body's levels of C-reactive protein, an inflammation marker.
4. Inflammation is a shared component in many illnesses of middle and old age.
5. Your risk for elevated inflammation is greater if you are obese.
6. Inflammation makes weight loss more difficult.
7. Certain foods like sugar and saturated fats trigger inflammation in healthy individuals.
8. A simple blood test for C-reactive protein levels is the best way to measure inflammation.
9. You can help support your body's healthy inflammatory response by supplying your body with the nutrition it needs, sleeping seven to nine hours a night, and reducing stress.

WHAT PUTS YOU IN FAT STORAGE MODE?

You eat simple carbs or high glycemic foods. ► A rise in blood sugar triggers a release of insulin. ► Insulin tells your body to store fat instead of using it. ► Losing weight becomes very difficult.

WHAT KEEPS YOU IN FAT REDUCTION MODE?

You keep your blood sugar levels balanced, promoting healthy insulin response. ► Healthy insulin levels allow your body to use up fat instead of storing it. ► Your weight loss efforts are optimized—and weight loss is easier.

Conquer those hunger cravings.

Hunger cravings are hard to fend off on your own. But *Attain CraveBlocker Bars* and *Shakes*, with Melaleuca's patented *CraveBlocker* formula inside, can give you the help you need.

Each serving is packed with 10 grams of protein and up to 10 grams of fiber.

Success story.

Smart satisfaction.

Need help sticking to your eating plan? You've got to try Attain. With Melaleuca's patented *CraveBlocker* formula inside, and plenty of protein and fiber, each Attain *CraveBlocker Bar* and *Shake* is the perfect snack replacement or meal addition for helping control hunger cravings.

Simply replace your current snacks with Attain *CraveBlocker Bars* and *Shakes*, or add a bar or shake to a small, sensible meal. *CraveBlocker* helps control hunger cravings from both your stomach and your brain. You'll feel more satisfied and better able to make smart snack-time and mealtime choices—a key to healthy weight loss.

Note: *Attain* should not be used as a sole source of nutrition. Consult with your physician before beginning any diet plan.

How does CraveBlocker work?

It uses four natural sources to help conquer cravings from both the stomach and the brain.

Chicory Root

Oats & Barley

SATISFIES THE STOMACH

Inulin: A soluble fiber from chicory root that expands in the stomach and slows the emptying process, helping you feel satisfied longer.

Beta-glucan: Derived from oats and barley, it helps prolong the absorption of energy from food—and reduces the absorption of fat. Also creates a lasting feeling of satisfaction.

Milk

Potato

SIGNALS THE BRAIN

Whey protein isolate: Derived from milk, it promotes the release of cholecystokinin (CCK), a hormone that signals your brain to turn off hunger cravings.

Potato enzyme extract (PI2): Clinically proven to increase CCK levels, satisfying your brain and controlling your emotional and mental cravings.

How much does it take to get 10 grams of dietary fiber?

7 NATURAL FIBER SOURCES

psyllium, oat, apple, rice bran,
inulin, maltodextrin, and
fructooligosaccharide

FiberWise contains a proprietary blend of seven natural fibers plus soothing herbs, antioxidants, and probiotics.

Full-body benefits.

Promotes healthy weight loss[†]

Promotes digestive health[†]

Helps lower cholesterol to reduce the risk of heart disease^{††}

Collects and sweeps away toxins and waste[†]

Improves regularity[†]

Supports immunity[†]

Researchers from the University of Massachusetts Medical School suggest that increasing your fiber consumption to 30 grams of fiber each day can help you lose as much weight as more complicated, food-restricting diets.

- Soluble fiber helps you feel fuller longer, which helps with weight loss efforts.
- Soluble fiber also slows the absorption of food during digestion, helping to maintain healthy blood sugar and cholesterol levels.

1 cup fresh strawberries
or raspberries
1 packet SplashH₂O Lemonade

HOW TO MAKE IT:
Blend 2 cups water, fruit, and SplashH₂O until smooth. Pour into pitcher and stir in remaining 4 cups of water. Serve over ice and enjoy.

SplashH₂O turns typical water into a refreshing drink that keeps your family craving the water they need with a flavor they love—without the sugar, calories, or cost.

SplashH₂O is available in refreshing Fruit Punch, satisfying Strawberry Kiwi, sublime Tangerine Peach, or tart, tasty Lemonade for less than 10¢ a glass.

Try the world's finest coffee.

Melaleuca's *Mountain Cabin Premium Coffee* is a collection of fine, flavorful, masterfully roasted coffee blends sourced from the finest coffee regions in the world. In your cup, it's a revelation.

Coffee that makes a difference.

FRESH. You're brewing coffee that was ground and packaged within minutes of roasting—so you can enjoy it at its freshest and most flavorful, cup after fragrant cup.

FLAVORFUL. A premium blend demands artisanal attention to bean selection and roasting. We hand-select our arabica beans with masterful precision, then small-batch roast them to maximize the flavor of each bean. You'll taste the difference in your first sip.

FAIRLY SOURCED. We only buy from farmers who meet our strict requirements for quality and fairness.

Farm workers must be fairly compensated for their labor and expertise. Farm practices must be environmentally sustainable. Our relationship with our growers is one of our most valuable investments.

Savor the art of perfection.

Our unique coffee-crafting process is a careful combination of age-old artistry and state-of-the-art quality control.

- **Sourcing.** The exact location of the small, specialty farms that grow our coffee is a treasured secret—guarded so you can experience the most prized characteristics of each premium bean.
- **Selection.** To ensure the flavor and integrity of every bean, we monitor quality from farm to roastery. Our master cuppers test the coffee for superior flavor, body, and aroma.
- **Roasting.** Under the careful guidance of our master roasters, our small-batch roasting process provides consistent, rich flavor and robust aroma in every roast, no matter the season.
- **Grinding.** We use water-cooled roller mill grinders to achieve the perfect grind without heating or re-roasting the beans.
- **Flavoring.** Our proprietary ribbon blending system ensures consistent flavor in each successive batch.
- **Packaging.** Our special bagging technique preserves freshness and flavor by keeping oxygen levels at a minimum.

Did you know?

Coffee is the number one source of antioxidants in the North American diet. It elevates energy levels, uplifts and awakens your senses, and increases your focus by making you more alert and attentive.

This is coffee with altitude.

Pour a cup of *Mountain Cabin Premium Coffee* and you'll experience the deep complexity of flavors found in only the finest coffee.

Mountain Cabin Premium Coffee is made from 100% arabica beans that are sourced from select areas around the world. These areas, all found between the two tropics, are renowned for their distinct rainy and dry seasons, steady temperatures, and mineral-rich soil.

Each farm where *Mountain Cabin* beans are grown is situated at nearly a mile above sea level—the altitude at which the richest, most flavorful coffee has been grown for generations.

PURE™

What are essential oils?

Essential oils are simply the oils found naturally in the flowers, leaves, bark, stems, seeds, fruit rinds, and other parts of plants. These oils are commonly extracted from their plant sources through either a steam distillation or cold-press process. The resulting highly concentrated oil maintains the natural essence of the plant, which is where they get the name “essential oils.”

Why buy PURE™ Essential Oils?

QUALITY: Each oil is 100% pure oil extracted directly from the botanical plant source and is guaranteed to not contain any synthetics or impurities. *PURE Essential Oils* meet the most stringent quality specifications and are put through a battery of quality tests.

VALUE: Melaleuca opened its doors with a promise to deliver exceptional products at reasonable prices.

At Melaleuca, you can buy the absolute highest-quality essential oils at an unbeatable value. Do not be misled by the high prices other companies charge for their oils. Overpriced oil is not higher in quality; it is simply overpriced.

Add your favorite oil or oil blend and carrier oil to our handy roll-on bottles (see page 60). Then you'll have a ready-to-use blend for on the go.

OIL BLENDS

Our custom blends take the guesswork out of mixing essential oils and give you the ideal balance of properties and fragrances for mood-boosting and aromatherapy benefits.

PURE Aromatic Bliss Ultrasonic Diffuser & Humidifier.

Without a doubt, diffusing is the most popular way to enjoy essential oils. Melaleuca makes diffusing easy with the *PURE Ultrasonic Diffuser & Humidifier*. This premium diffuser uses high-frequency vibrations to create an ultra-fine mist for more even fragrance distribution. Unlike other diffusers, it uses a cold-air process that does not heat the oil, ensuring the aromatic benefits of the oils remain intact.

Healing through the years.

Since 1985, Melaleuca households have had a source of relief that just can't be found anywhere else.

In 1985, Melaleuca founder and CEO Frank L. VanderSloot traveled to Australia to secure a supply of high-quality Melaleuca Oil. Only in a few carefully selected locations can oil meeting the quality and purity of T36-C5 and T40-C3 Melaleuca Oil be grown. Naturally antiseptic, soothing, safely penetrating, non-caustic, effectively solvent, and pleasantly aromatic—Melaleuca Oil is a trusted source of relief for everyday first aid needs.

4 steps to brighter, healthier smiles.

Brighter smiles. Fresher breath. More comfort. More confidence. It's what Melaleuca Dental Care naturally gives your family each day.

1. Brush

Want to keep that brilliant, healthy smile? Dentists recommend brushing twice a day. When you brush with *Whitening Tooth Polish*, you'll be protecting your teeth against plaque and tartar while you whiten and freshen.

Each *Whitening Tooth Polish* features zinc citrate, a natural plaque and tartar fighter; papain, a natural tooth whitener; pure myrrh and T40-C3 *Melaleuca* Oil for natural bacteria control and breath freshening; and xylitol, a natural, tooth-friendly sweetener.

3. Rinse

Give your mouth more protection against gingivitis. *Breath-Away Mouth Rinse* features CPC, a dentist-recommended ingredient that fights gingivitis. Also inside this alcohol-free formula is zinc citrate to fight tartar and plaque, pure T40-C3 *Melaleuca* Oil and myrrh to fight bad breath and give long-lasting freshness, and xylitol for natural, tooth-friendly sweetening.

2. Floss

Don't forget to floss. *Classic Dental Floss* features waxed floss that glides easily between teeth, removing particles and plaque for greater oral health.

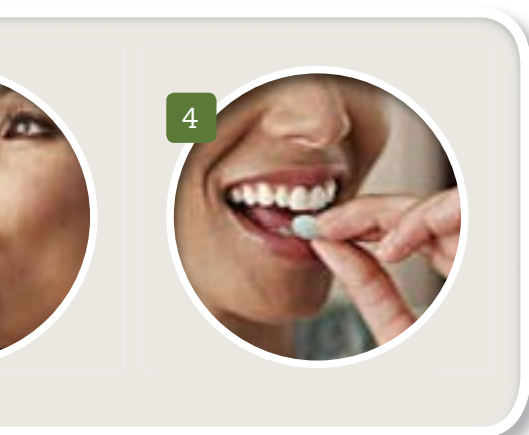

4. Freshen

Hot Shot and *Cool Shot Breath Sprays* and *Exceed Sugar-Free Gum* and *Mints* don't just disguise bad breath, they help fight it with lasting freshness. And they're sweetened with xylitol for guilt-free refreshment.

Do your breath a favor.

4

Nobody else gives you this combination of natural ingredients!

PAPAIN: An enzyme from papaya that breaks away tooth surface stains for whiter teeth without damaging enamel.

MYRRH: This precious resin from African and Middle Eastern trees has long been known to be a germ-fighting astringent.

XYLITOL: Found in many fruit and vegetable fibers, bacteria cannot ferment this sweetener in the mouth, so it sweetens without contributing to tooth decay.

T40-C3 MELALEUCA OIL:

The purest form of this essential oil from the tea tree, this extract helps control bacteria and freshens breath.

CUSTOMER
EXPERIENCE

"I developed adult acne, and after years of using over-the-counter products and seeing dermatologists, nothing worked! I'm so happy I found Clarity! Clarity has cleared my skin like nothing else ever did, and the best part is, it doesn't dry it out leaving that peeling, flaky skin. I'm in love with this product!"

—Perla M. Hernandez, NATIONAL CITY, CA

A family of moisturizing relief for every member of your family.

Soft, healthy skin doesn't just look better, it feels better. And nothing helps your family keep their skin as soft as *Renew Lotion*. With a proprietary blend of proven ingredients, you'll see and feel noticeably softer and smoother skin in just 24 hours.

Renew is clinically proven to:

- Provide the right moisturizing ingredients at the right amounts for lasting, dry-skin relief
- Leave even severely dry skin softer, smoother, and better hydrated in just 24 hours
- Perform better than the #1 dermatologist-recommended lotion in moisturizing dry skin

Before using *Renew*

Two days after using *Renew*

At about six weeks old, twins Alexis & Layla Kahoochanohano began to suffer from severely dry skin. Their mother, Jaime, tried everything she could get her hands on. Then she discovered *Renew*.

"The difference was amazing. I was absolutely floored."

Surrounded by savings.

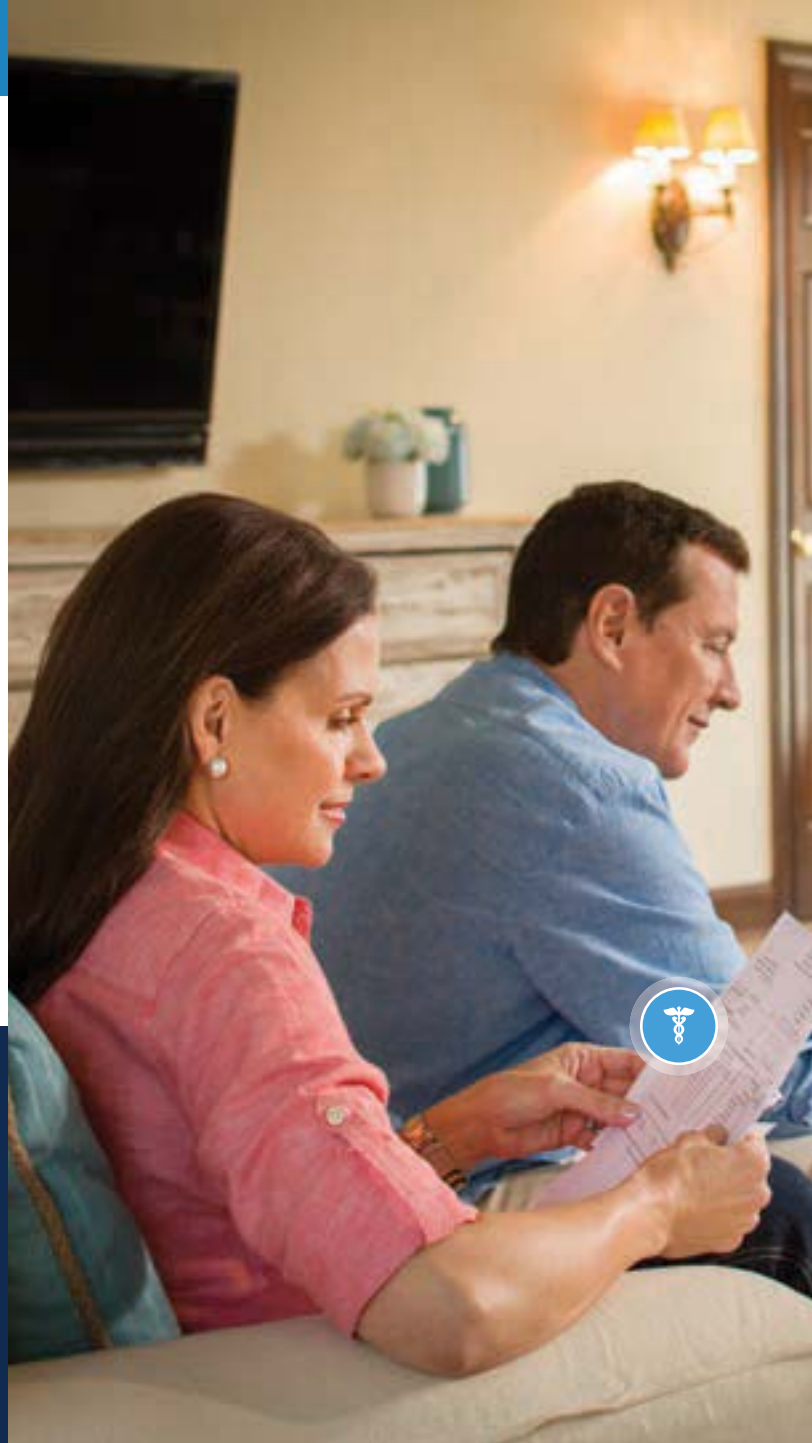

Exclusive benefits just for Preferred Customers.

In addition to shopping for exclusive wellness products, Melaleuca allows you to upgrade your services and save on things you already use every day.

Cutting-edge ways to protect your home with Melaleuca Home Security.

Make your home more convenient, safe, and comfortable with these state-of-the-art updates that give you even more power to deter intruders and prevent accidents. You can also use Melaleuca Home Security every day to reduce energy consumption and stay aware of what's going on at all times.

- Mobile app notifications will keep you informed of any activity in or around your home.
- Programmable video cameras begin recording at a scheduled time, when a door opens, or if any motion is detected.
- Recorded changes to the environmental controls, either through a set schedule or remotely, allow your home to learn behavioral patterns and adjust the temperature, lights, and appliances accordingly, transforming your home into a "smart home" that saves you money in energy costs.
- Environment Response will alert you in the case of fire, smoke, or increased levels of carbon monoxide, and even includes flood detection.
- Medical emergencies can now be identified and pinpointed with mobile emergency call buttons and GPS location tracking.
- And so much more!

affinia®

Moisturizing

Promotes balance with special conditioners that won't weigh hair down.

• FOR NORMAL-TO-DRY HAIR

Ultra-Moisturizing

Rich moisturizers intensely hydrate parched hair and fortify against damage.

• FOR EXTRA-DRY, COARSE, OR DAMAGED HAIR

Volumizing

Amplifying technology adds body and controls excess oil.

• FOR FINE, LIMP, OR OILY HAIR

The difference is in what we left out.

Nourishing botanicals. Softening conditioners. Advanced hair care technology. Affinia has that. But what it doesn't have is just as important to your hair's health and shine. Affinia Hair Care is completely sulfate-free.

Sulfates are the primary cleaning agents found in most shampoos. But sulfate molecules damage your hair.

Affinia works with your hair—not against it. Gentler molecules wash away oil and buildup while keeping hair smooth and strong.

SULFATE-FREE

Shine through.

Bring out your natural radiance with *Affinia Facial Care*. Each formula goes beyond the basics with nourishing ingredients.

Vitamins B3, B5, and B6 protect the skin's moisture barrier and soothe irritation.

Vitamin E neutralizes free radicals and softens skin.

Glycerin attracts water and seals in moisture.

Salicylic Acid dissolves buildup in pores to clarify skin (in *Cleanser + Toner* and *Facial Scrub*).

Longer-lasting luxury bars.

Melaleuca Bath Bars take more time to make—but the results are worth every extra minute.

Melaleuca Bath Bars are crafted using the painstakingly precise art of French milling. Precious ingredients are condensed through temperature-controlled steel rollers three times, removing more air with each pass, and perfectly blending the material into richer, more concentrated bars. The result? Smoother bars that lather better and last longer. No other bath bars are quite like these.

To prove the lasting power of *The Gold Bar*, Melaleuca scientists placed *The Gold Bar* and four leading brands in a machine to replicate the environment of a daily shower, continuously dipping the samples in and out of warm water.

***The Gold Bar* reigns supreme and lasts an average of nine times longer than Dial.** ►

* Compared to buying the products individually at Preferred Customer prices.

How long did The Gold Bar test sample last?

A testing machine continuously dipped bars in warm water until the bar completely dissolved. Each bar was tested three times for an average score.

NEW

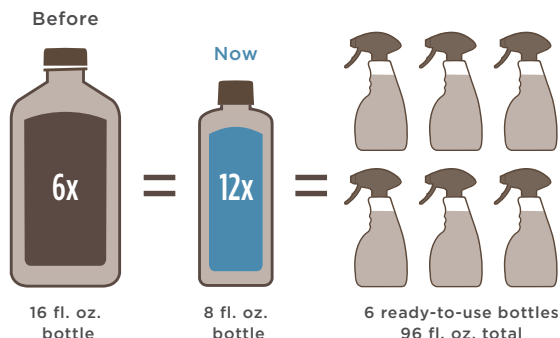

12 times super-concentrated.

Introducing EcoSense 12x home cleaning products!

At Melaleuca, our job has always been to give you the tools you need to make your home safer and cleaner while keeping the world around you in better shape.

For 30 years, we've been pioneering formulas that are more natural, more effective, and more concentrated than anything else on the market.

For years we have been the only manufacturer offering 6x concentrated cleaners. Now we're proud to share with you our incredible new 12x cleaners! These unprecedented formulas offer all the cleaning power you love in an even smaller, more condensed size you won't find anywhere else. For safer formulas, better value, and unmatched innovation, nothing's better for your home and family than EcoSense.

Half the size means:

- Less fuel to ship
- Less space in your cabinets
- Less plastic waste
- Still makes 6 ready-to-use bottles

Safe, fresh, and sparkling clean.

The secret is in the organic cleaners.

Most toilet bowl cleaners rely on harsh chemicals to fight grime, odors, stains, and buildup. *Safe & Mighty* doesn't.

Instead, you'll find organic cleaners derived from citrus fruits and herbs. It's a proprietary combination that naturally delivers the perfect punch to knock out even the toughest toilet stains. And because it uses organic cleaners, it leaves your bowl with a fresh, clean fragrance no chemical formula can. Powered by organic acids and thyme oil, *Safe & Mighty* has the same environmental impact as a bowl of lemons.

It's the clean you demand with the safety you've come to expect from EcoSense.

Safe & Mighty Toilet Bowl Cleaner!

Now there's an effective and environmentally responsible way to keep your toilet bowl clean and fresh. All-new *Safe & Mighty* delivers unmatched cleaning power with organic acids that also keep your bathroom smelling as clean as it looks. Who says you can't have it all?

LINENS & TOWELS

With 3 proven formulas, stains don't stand a chance.

Whether you choose original *PreSpot Spray*, *PreSpot Gel*, or *PreSpot Instant*, you can trust *PreSpot* to remove all of your tough laundry stains.

- **PreSpot Spray** includes three powerful, natural enzymes to target and break down a wide range of tough, set-in stains

- **PreSpot Gel** is more concentrated for stubborn spots, and the scrub brush helps penetrate and loosen stains

- **PreSpot Instant** uses proven hydrogen peroxide (no chlorine bleach) to remove fresh stains—fits in your purse, pocket, or backpack (compare with Tide® to Go®†)

Whiteness Longevity

This test was conducted by washing a load of T-shirts, towels, socks, and pillow cases with dirty wash water for 30 cycles. Color measurements were done after each cycle to determine any change to the whiteness of the articles. Tide saw significant graying after 18 loads, while Triple Enzyme *MelaPower* kept the clothes looking white and bright even after 30 wash cycles.

New, improved performance. Same gentle protection.

The best laundry detergent just keeps getting better! All-new *MelaPower* now delivers a massive cleaning boost for the same, low price—but it's still just as gentle on your clothes and your skin—because there's more than just laundry on the line.®

NEW

NEW TRIPLE ENZYME FORMULA

MelaPower now boasts a new triple enzyme formula that takes on a wider range of stubborn stains, all while preventing graying and dinginess to keep clothes looking new for longer than ever before!

- Targets an even wider range of stubborn stains
- Natural enzymes keep clothes from becoming gray or dingy
- 6x-concentrated—just ½ fl. oz. cleans an entire load
- Chlorine bleach-free, non-alkaline, and gentle
- Uses plant-derived, biodegradable ingredients

GO

Enjoy fresh-off-the-line fragrance that lasts for weeks!

Let your laundry take you to an alpine meadow, even weeks after you wash it. All-new *MelaBoost Laundry Fragrance Booster* lets you control the scent of your laundry. Just add this long-lasting scent enhancer along with your *MelaPower* to transform your laundry into a mountain escape that lasts until your next wash.

One capful or two, the amount of fragrance is totally up to you! But no matter how much you add, you can be sure the fresh scent will last for weeks. *MelaBoost Laundry Fragrance Booster* is safe for regular and high-efficiency (HE) washers, and for all types of laundry.

EXPLOSIVE GROWTH

In our 30-year history, we've had explosive growth before, but nothing quite like this! Since our January Product Launch, customers around the world are discovering Melaleuca at a meteoric rate! What is fueling this massive growth? Is it *Mountain Cabin™ Premium Coffee*? The *Peak Performance Packs*? *Safe & Mighty™ Toilet Bowl Cleaner*? *PURE™ Essential Oils*? The *New Day Compensation Plan*? Or is it something else? One thing is for sure: Melaleuca is rocketing into the future!
