

NEW SOLUTIONS FOR ALL YOUR CEILINGS

COMPANY PROFILE

Level Plus Co., Ltd

100/36-40, Soi BangTao 1,
Moo5, Cherngtalay
Subdistrict, Thalang,
Phuket, 83110
Company Registration
Number: 0835561007494

Our company was established in 2017 specifically for manufacturing, designing,

installing the stretch ceilings in Thailand. In our opinion, this modern constructional technology strongly suits the needs of the Thai market, first of all because of its 100% moisture resistance and other endurance qualities, making it durable even in this climate, which is notorious for its ruthlessness towards building materials.

We are bringing experience from European countries such as Lithuania and Russia, where the technology has been widely used for more than 25 years, and also a lot of experience has been gained in Thailand over the last 6 years. We have produced and installed more than 30,000 m² and collected extremely positive feedback both on the installation process and on their perfect condition over the years.

We directly employed, professionally trained, and fully equipped four installation operative teams.

Our warehouse has about 30 of the most popular fabric colors in stock in different roll sizes, as well as most of the accessories and other materials needed for production and installation, so we can provide you with good terms for non-exclusive orders.

So now we are proud to offer you our high-quality products and professional service.

Let this limitless design technology come into your everyday life-Level Plus!

Not only the big developers' wish to have this maintenance-free and durable technology on their board, we worked with cars and motorcycles.

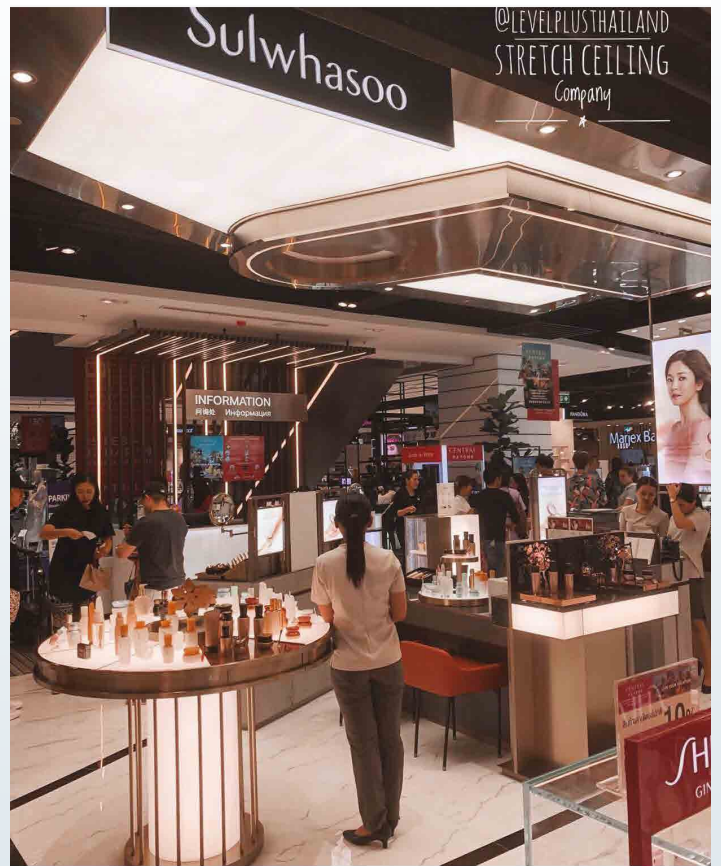

There are also numerous private villas and condos, as well as trade centers, common areas, and exclusive shops and showcases...

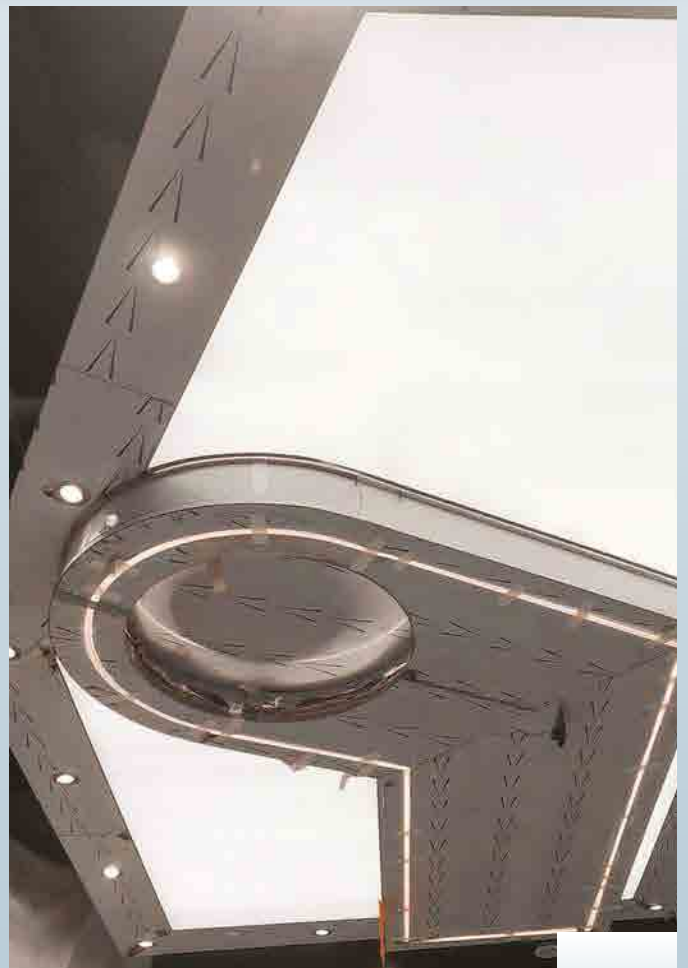

- ▲ The new branch of TTB Bank in Phuket, with its new appearance, includes our job
- ▼ Translucent and printed with a "Blue Sky" ceiling, this Phuket car the show shop makes it special.

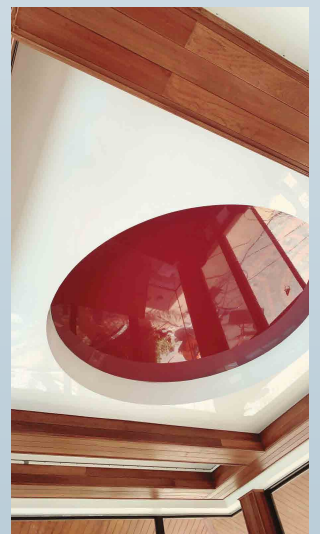

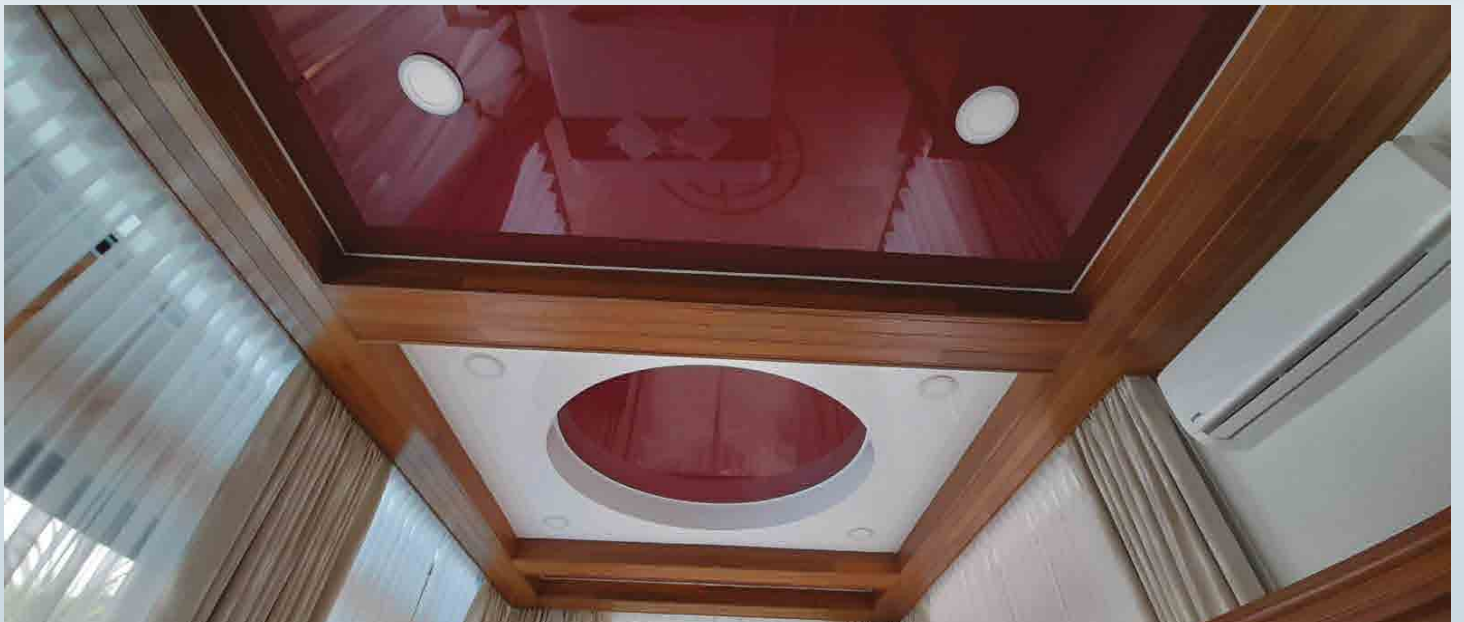

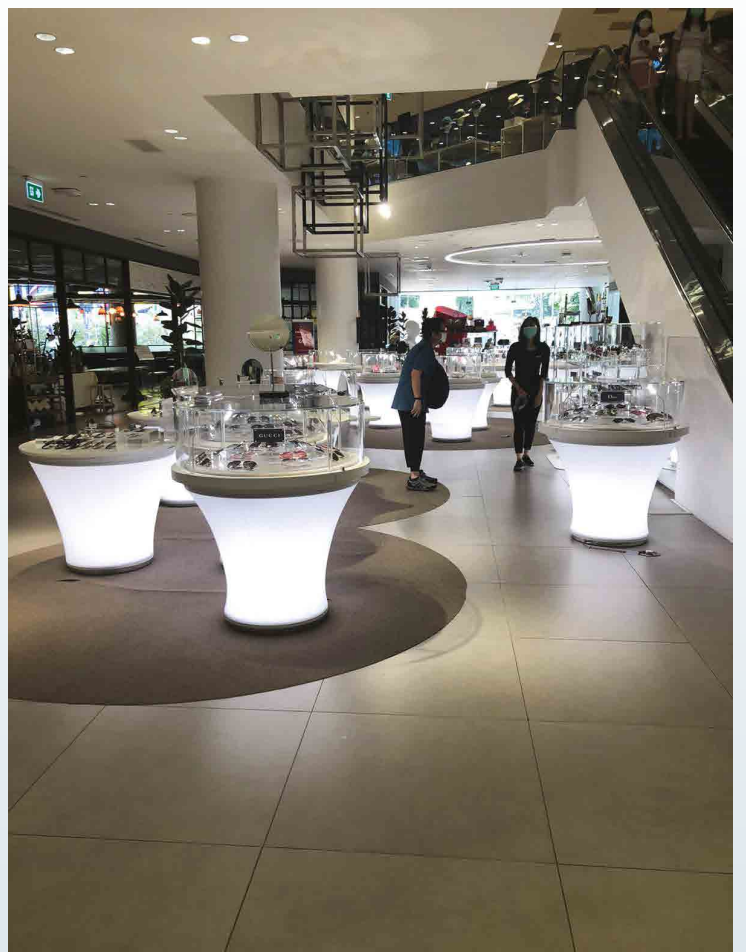

Sulwhasoo show shop in Patong, Phuket. They do great cosmetics and we do great illuminated panels.

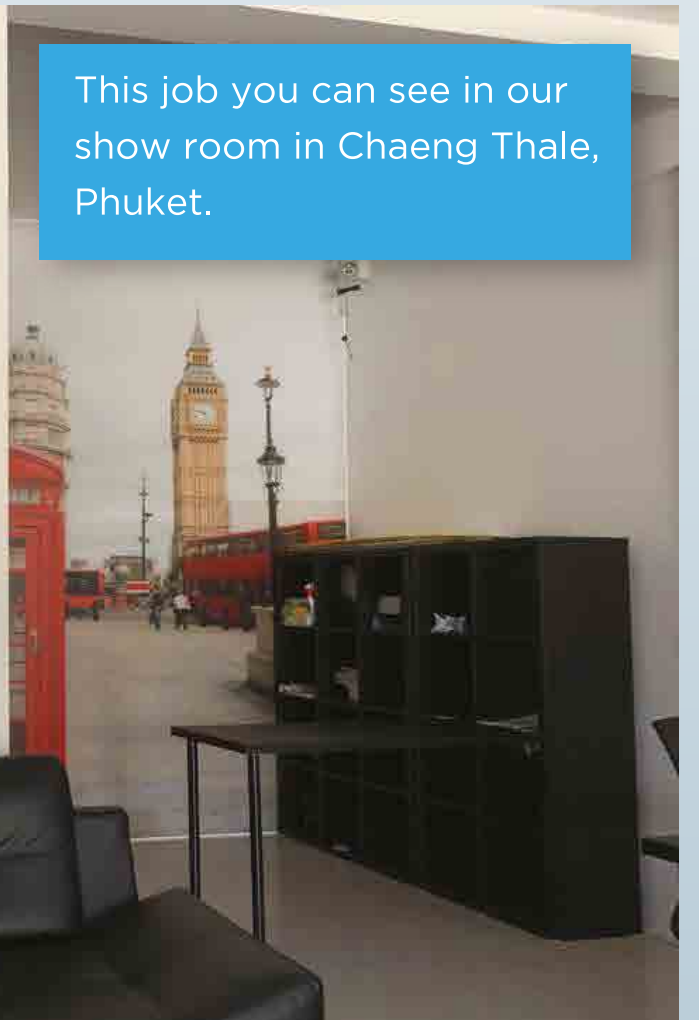

It was a great pleasure to take part in the renovation of this 800 m2 "Red Wine" villa.

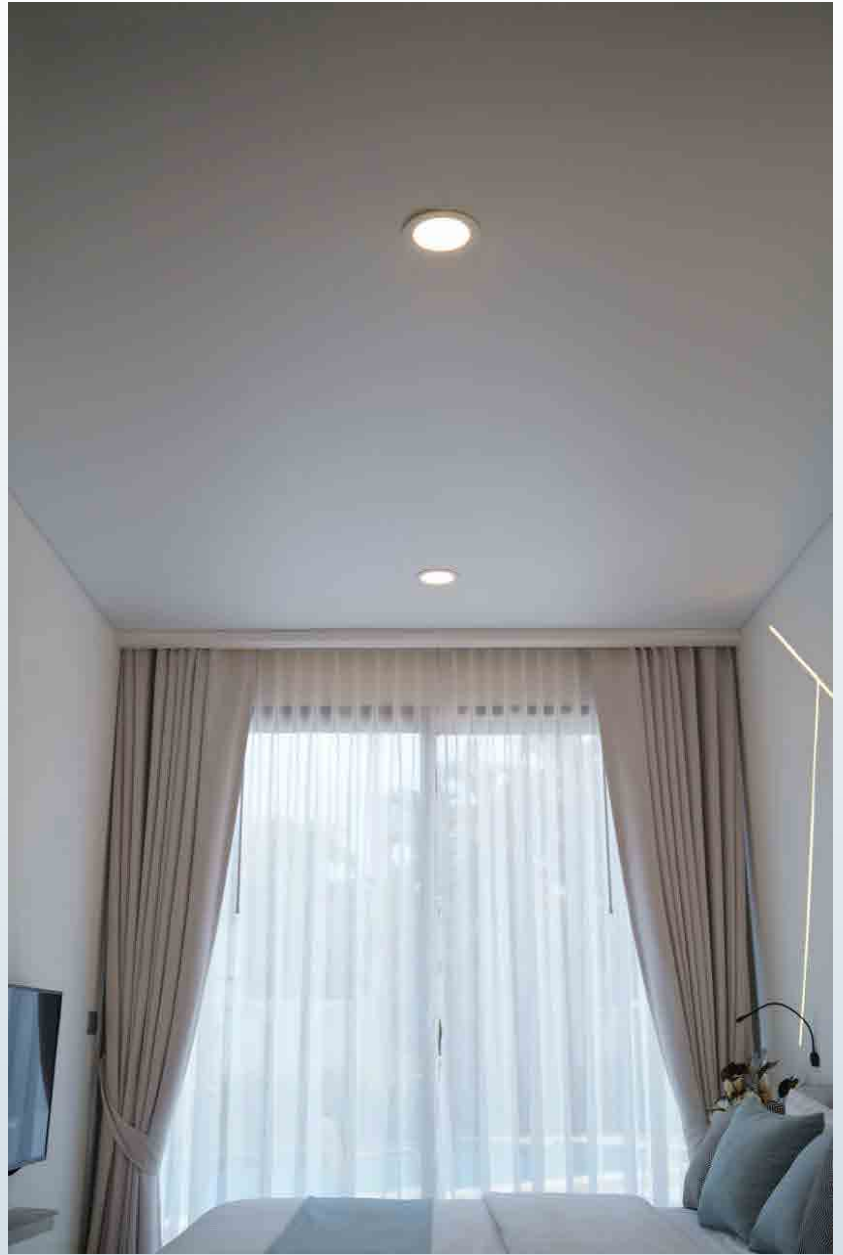

▲ 3D shapes illuminated from inside are expensive and take a long time.
We do it faster and at an affordable price.

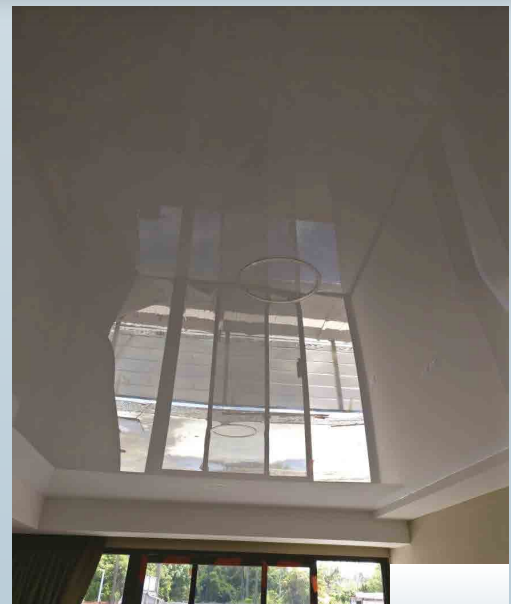

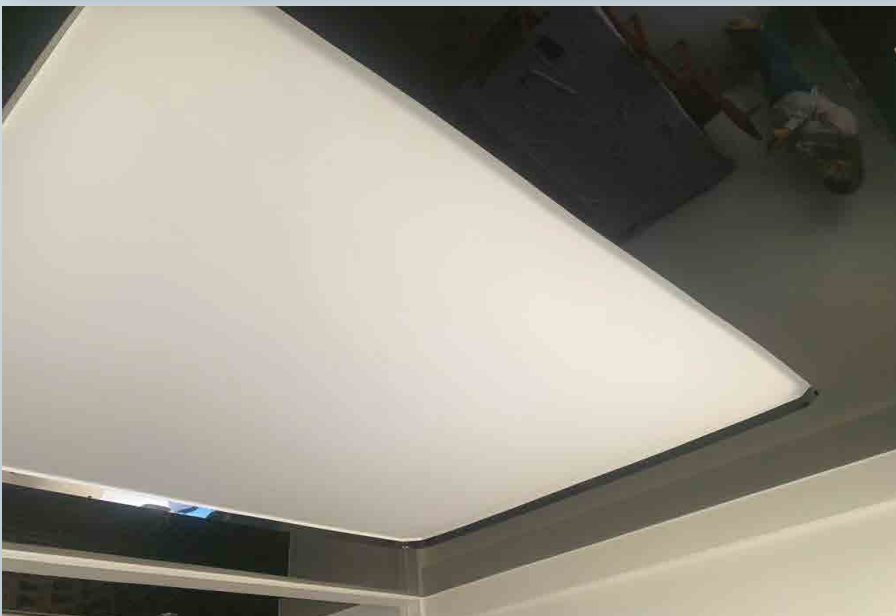

This job you can see in our show room in Chaeng Thale, Phuket.

In renovations, our material is like a "magic stick," quickly covering any imperfections or damage on your old ceilings and walls. It is clean, fast and can even be done without demolition of the old surface.
