

CONSTRUCTION NOTIFICATION AND PROJECT UPDATE MANNING BOULEVARD MOBILITY HUB

The Capital District Transportation Authority (CDTA) would like to inform you about the status of their project in your area – the **Manning Boulevard Mobility Hub**. Starting on or around **July 15 2024**, CDTA’s contractor, Carver Construction, will begin work along **S. Manning Boulevard** between New Scotland Avenue and Hackett Boulevard (near the entrance to St. Peter’s Hospital and Maria College). All those who regularly travel in the area should anticipate minor traffic impacts and/or changes to regular bus service.

During Construction:

- **Traffic Impacts** – There will be no detours or full road closures but at times only one lane of traffic will be able to travel along S. Manning Boulevard. Flaggers will control traffic.
- **Temporary Bus Stops** – During construction the existing bus stops will be moved. See the image below for the exact location.

Project Elements:

- New, larger bus shelters and heated sidewalks improve passenger’s experience
- DRIVE car share spots with EV charging stations and *CYCLE!* bike share offer more mobility options
- Pedestrian safety improvements such as upgrades to the existing crosswalk and a pedestrian refuge on a new landscaped median
