| **Visa free** travel to the EU from June 11, 2017

CONSEQUENCES OF THE ATTACK ON THE AIRPORT (06.03.2022)

RECONSTRUCTION OF THE AIR TERMINAL

ACCORDING TO THE PROJECT:

The terminal is divided into two sectors: international flights and domestic flights.

The terminal has a capacity of 400 passengers per hour: 320 passengers per hour for international flights and 80 passengers per hour for domestic flights.

The international and domestic flight sectors are divided into arrival (first floor) and departure (second floor) zones.

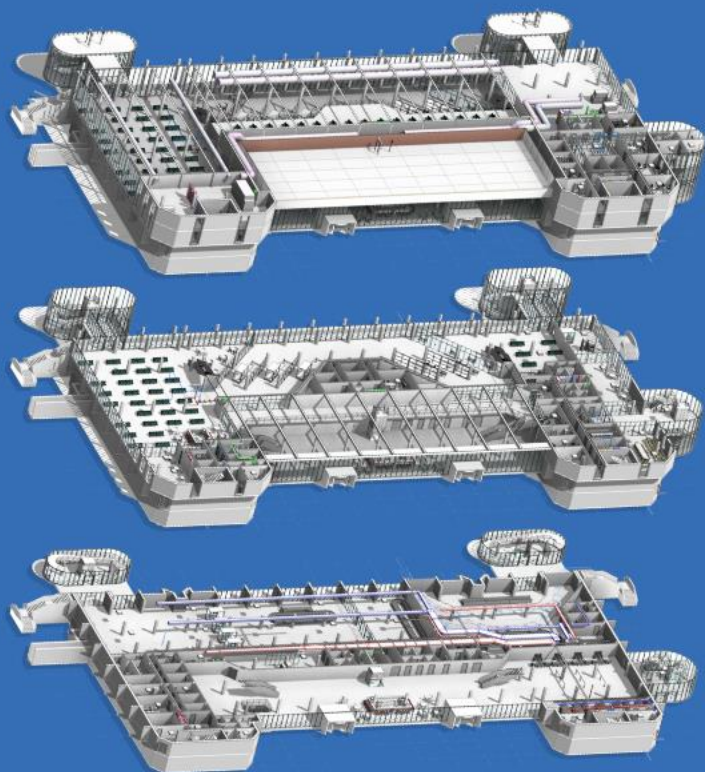

In the left "wing" there are restrooms for passengers and visitors, service and technical premises, and a bomb shelter. A part of the service area is occupied by dressing rooms, showers, and bathrooms for groups of employees of the border and customs services.

In the right "wing" there is a block of medical care, service, and technical premises. A part of the service area is occupied by dressing rooms and bathrooms for groups of employees of aviation security services and transportation organization.

RECONSTRUCTION OF THE AIR TERMINAL

- 4805 m² Building area
- 2,3 Number of storeys
- 400 passengers per hour Passenger throughput
- 7626 m² Total area
- 30790 m³ Building volume
- 151 parking spaces Parking lot

THE OTHER SIDE

8 DECENT WORK AND ECONOMIC GROWTH

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE
