## ABOUT US

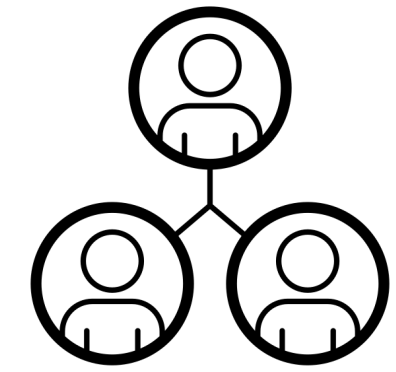

---

We are 100% authors of our projects. All stages of construction take place without the participation of the contracting companies. This ensures maximum attention to details and high quality of each of our objects.

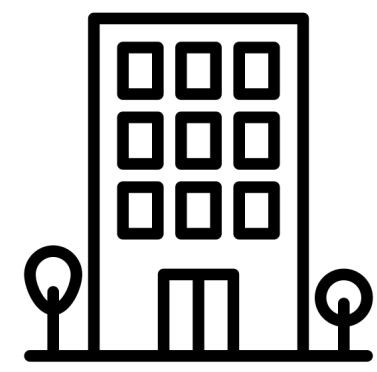

The ICON was founded in 2020. By then, we have gained an experience as a contractor of many well-known Lviv developers. ICON DEVELOPMENT builds unique houses and warm relations with people.

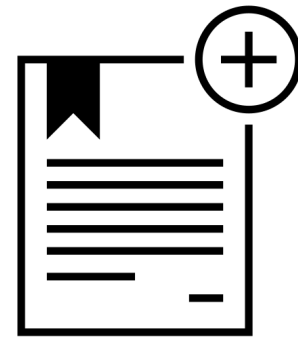

Construction and organization construction processes, general contractor, technical supervision

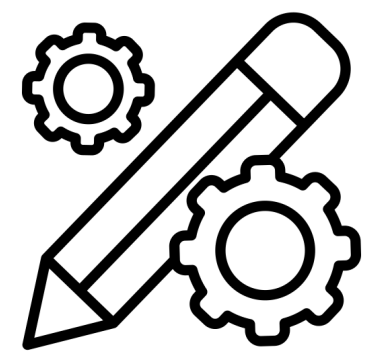

Constructional management

Repair and finishing works

Legal support of projects

Technical solutions for medical and educational institutions

---

" Architecture is a passion  
that builds a independent life. "

---

Patriotism is love for one's country, respect for  
others and the ability to defend oneself.  
Ukraine has lost this feeling throughout its history  
and we need to return it.

---

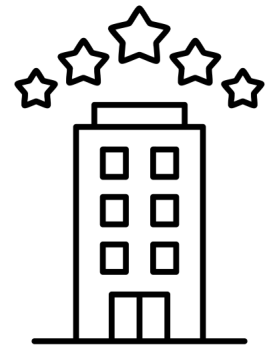

## ABOUT US

---

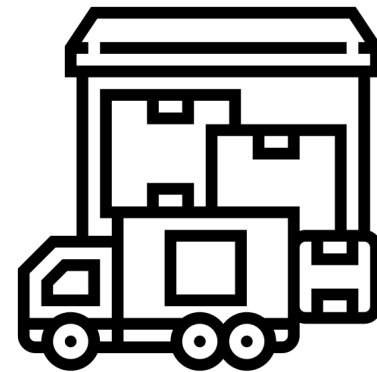

VR-GROUP is a design and construction company that provides a full range of architectural and construction services from concept to implementation of objects.

We have extensive experience in performing project works at all stages of projection from concept to working documentation of architectural, design and engineering sections. We also provide full legal and development support for the facility.

Priority areas of work are the creation of apartment buildings and hotel-recreational complexes, logistics and production centers, shopping and office centers, individual houses, and also design of private and public interiors. In our activities we use creative ideas and modern construction technologies.

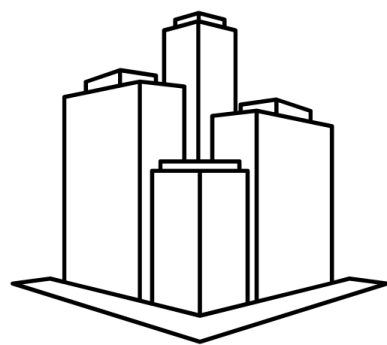

Hotel-recreational  
complexes

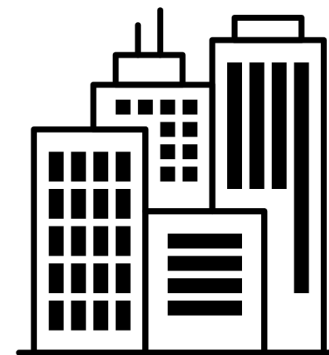

Logistics and production  
centers
