

# VidnovyDIM Program Ukraine-2023

## The first results

## Who are we?

The **Energy Efficiency Fund** is a state-founded institution that provides tools for the renovation of multi-unit residential buildings run by homeowners' associations (HOAs) in Ukraine.

The EE Fund provides grants which HOAs can use to **improve the energy efficiency of their apartment buildings.**

The EE Fund is an effective tool for **reducing the carbon footprint** of Ukrainian communities.

The **European Union** and the **German government** support the **EE Fund's activities.**

As a result of a **large-scale russian invasion** in Ukraine more than **140 thousand residential buildings** has destroyed.

Over **3.5 million** Ukrainians have been left homeless...

# VidnovyDIM: General principles

## Purpose of the Program

financing repairs to residential apartment buildings damaged by Russian military attacks

## Program Participants

Legal homeowners' associations (HOAs) governing multi-family apartment buildings and/or other dwellings.

## Eligible Repairs

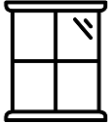

The types of work, material and equipment covered by grant funding are determined by the Energy Efficiency Fund's Directorate and published on the Fund's website.

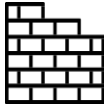

## Validity term

during the period of availability of funds received by the Fund for program financing

## Projects eligible for VidnovyDIM funding

**Replacement or repair**  
of damaged windows  
and doors

**Repair**  
of damaged  
facades

**Repair**  
of damaged  
roof material

**Repair**  
of damaged heating  
equipment or other  
utilities
