TIPS FOR PIPETTES

1000 µl, sterile, with filter

Manufacturer code:

21031006

21031007

21031008

v.01-291224

Universal pipet tips Gilson-type, which are suitable for mechanic pipettes of various manufacturers. Made of high-quality polypropylene (PP), have high chemical resistance to acids, alkalis, aldehydes, aliphatic alcohols. The color of the tips is blue. The tips are equipped with an aerosol barrier in the form of hydrophobic filters that prevent sample contamination. Sterile. Packaged of 100, 250 and 500 pcs.

Specification:

Parameter	Value	Package	Code
Material	polypropylene	100 pcs	21031006
Volume, µl	1000	250 pcs	21031007
Length, mm	70±0.3	500 pcs	21031008
Cannula diameter, mm	8.3±0.3		
Colour	yellow		
Filter	yes		
Microbiological status	sterile		

Intended use:

The tips used for dosing small volumes of liquids, as well as transferring and mixing liquid samples.

Instructions:

The product is disposable, do not reuse.

Do not use after the expiration date or if the damaged package.

Keep out of the reach of children.

Keep away from open flames or heat sources that may damage the product.

The products should be stored in a dry room at temperatures from +5 °C to +40 °C and relative humidity < 80%.

Disposal: in accordance with current standards.

Shelf life: 5 years.
