

For:
Republican Party of Serbia
To the president of the party, Mr. Nikola Sandulović;

Allow me to send you this letter with the most sincere expressions of congratulations for the establishment of the first official political cooperation between a political party officially registered in the Republic of Serbia and a political party officially registered in the Republic of Kosovo.

The path you have taken and pioneered is the only correct one that should be followed in order to reach true and sincere reconciliation between peoples, to the joy of our common future, but also to the joy of the whole of Europe, which has healed its sufferings from the world wars by walking along the same path of reconciliation and cooperation, and now with such expectations it looks impatiently at us. The correctness of this path of yours is best witnessed by today's great, united Europe, which, with the peace you strive for, has become a factory of happiness for its citizens.

The task of all of us who live in this part of it is to use examples like these to strengthen hope for our future and the future of our children, equally Serbian and Albanian, as well as all the peoples and ethnic communities of this part of our continent.

This act of yours, in addition to immeasurably contributing to the European future in the spirit of its most beautiful values, simultaneously breaks the artificial or unnatural monopoly existing in the Republic of Serbia until now on malicious determinations of what kind of cooperation with institutions and organizations in Kosovo is "permitted and what is not" and at the same time contributes to breaking propaganda which was created in Serbia on the occasion of Kosovo, considering that the citizens of Serbia, of Serbian nationality, have long participated in the work of the Parliament of Kosovo with the support of the Republic of Serbia, swear to it to preserve sovereignty and territorial integrity, receive a salary from the budget of the Republic of Kosovo and use personal documents issued by the Republic of Kosovo.

Monopoly and abuses regarding that reality must not be allowed in the future, and I find particular joy that this stops with your act.

With regret for the behavior that your country and mine applied towards you at the border with the Republic of Kosovo in order to diminish the importance of your act, which makes your act even greater, **I wish the Republican Party of Serbia a successful and fruitful cooperation with the Republican Party of Kosovo.**

Congratulations and good luck!

**FREEDOM ALLIANCE OF FREE SERBIA
OCTOBER GROUP**

President Chedomir Stokovich
Čedomir Stojković
