BUSINESS PROGRAM

50 events

The main healthcare event in Ukraine!

Public Health is a leading medical platform that brings together healthcare professionals, business, government authorities, managers and owners of medical institutions. Annually, leading Ukrainian and international manufacturers and distributors showcase innovative technologies and equipment for diagnostics, treatment, and rehabilitation, as well as a wide range of medical products and services.

Alongside Public Health, the specialized exhibitions LabExpo and IDF take place, enhanced by the **Public Health Congress: Decisions and Innovations in Management and Medical Practice**.

This year, Public Health created a professional environment that fostered experience sharing, establishment of new partnerships, and expansion of business opportunities.

Participation offers the opportunity to:

- ✓ Find new clients and partners
- ✓ Showcase new products and services
- ✓ Explore competition and innovation
- ✓ Establish personal contact with clients and partners
- ✓ Strengthen the company's professional reputation

International Dental Forum is the largest dental exhibition in Ukraine. Each year, it brings together leading manufacturers, distributors, and importers of dental equipment, materials, and technologies. In 2025, the exhibition featured 54 participating companies, showcasing 180 brands and more than 500 units of dental equipment and devices.

The IDF Conference serves as its educational platform. Congresses, conferences, seminars, training sessions, continuous presentations, and interactive masterclasses at exhibitor stands create a dynamic environment for sharing experience, up-to-date knowledge, and practical insights.

The IDF Conference serves as its educational platform. Congresses, conferences, seminars, training sessions, continuous presentations, and interactive masterclasses at exhibitor stands create a dynamic environment for sharing experience, up-to-date knowledge, and practical insights.

IDF brings together dental professionals to present innovations and build partnerships across the dental market.
