ELIMINATION OF CONSEQUENCES

RESTORATION of critical infrastructure

restoration and development

PARALLEL STAGES

Involvement of specialists

for making the spatial development strategy of the territory after deoccupation, analysis of the impact on the ecology

Strong economy

creation of appropriate conditions for the development of the new powerful economy taking into account the safety, ecology and comfort of citizens

Returning of the business

we are already negotiating with business representatives on the return of the enterprises to the community

Restoration Project

"Demining and clearing the territory of the Bakhmut community"

Nowadays we are approaching only our primary step of restoring the peaceful Ukrainian-Bakhmut territory

OBJECTIVE OF DEMINING

elimination of the consequences of the full-scale invasion and normalization of life activities of the Bakhmut community

TYPES OF DEMINING

due to the long duration and intensity of hostilities operational demining and humanitarian demining are both needed
