- The estimated cost of project implementation is **USD 1,315,789**.

RESTORATION OF SCHOOL NO. 5

PRIORITY RECONSTRUCTION PROJECTS FOR THE COMMUNITY IN 2024-2025

RECONSTRUCTION OF AN EXISTING NON-RESIDENTIAL PUBLIC BUILDING FOR THE NEEDS OF THE PRIMARY MEDICAL CARE CENTER

Project budget estimate: USD 1,049,362.

Project objective: to reconstruct an existing non-residential building to create a healthcare facility that will facilitate the provision of proper conditions for organizing the medical process and reduce energy resource expenses through the implementation of modern energy-saving technologies.

MAJOR RENOVATION OF THE EDUCATIONAL INSTITUTION IN THE VILLAGE OF SOLDATSKE

Project budget estimate: USD 1,150,345.

Project objective: to restore and comprehensively reconstruct the educational institution of the Trostyanets community, which has suffered due to military aggression, and implement thermo-modernization.

RECONSTRUCTION OF THE CANTEEN-CAFE INTO A MODERN EDUCATIONAL-CULTURAL CENTER (HUB)

Project budget estimate: USD 1,368,421.

Project objective: to establish an educational and cultural center in the format of a HUB in the Trostyanets community and create an infrastructure base for the development of informal education in the Sumy region by revitalizing the former cafeteria-cafe premises.

RECONSTRUCTION OF THE SEWAGE TREATMENT FACILITIES IN TROSTYANETS CITY

Project budget estimate: USD 3,947,368.

Project objective: to modernize the existing water treatment infrastructure in Trostyanets, provide the population with quality wastewater services, reduce the negative impact on the environment, and develop the city's municipal infrastructure.

Creation of a multifunctional leisure center through the revitalization of the Trostyanets community's municipal boiler house.

Project budget estimate: USD 631,281.

Project objective: to create a multifunctional leisure center for extracurricular and informal education, with the development of a modern public space including the revitalization of green areas, children's playgrounds, and fitness areas. This will make the location more attractive and comfortable for the relaxation of local residents and city visitors.

CREATION OF A MULTI-FUNCTIONAL REHABILITATION HYDROTHERAPY DEPARTMENT

Construction of a rehabilitation hydrotherapy building on the premises of the city hospital – **USD 5,210,526.**

CREATION OF A MULTI-FUNCTIONAL REHABILITATION HYDROTHERAPY DEPARTMENT

The goal is to open the first rehabilitation department in the Okhtyrka district, providing medical, psychological, and social rehabilitation for military personnel and their family members, as well as civilians who have suffered from military actions.

CREATION OF A MULTI-FUNCTIONAL REHABILITATION HYDROTHERAPY DEPARTMENT

Key aspects of the need for the functioning of the rehabilitation department include:

- there is existing demand from the population for this type of medical services.
- the absence of medical facilities nearby that offer rehabilitation services.
- the hospital's location near the natural area of "Neskuchne."

THE TROSTYANETS COMMUNITY NEEDS YOUR SUPPORT AND ASSISTANCE FOR ITS RESTORATION
