

REBUILD UKRAINE: CONSTRUCTION & ENERGY

REBUILD UKRAINE – IS A GLOBAL ACCELERATOR FOR UKRAINE’S RECOVERY

International exhibition and conference **REBUILD UKRAINE: CONSTRUCTION & ENERGY** is held on 13 – 14 November 2023 in EXPO XXI exhibition center Warsaw, Poland

The international exhibition and conference ReBuild Ukraine has acquired all the hallmarks of a global accelerator of Ukraine's reconstruction process. In a broad sense, ReBuild Ukraine has become a powerful platform for global teambuilding of partner countries united by Ukraine. Casting of all the projects for the restoration and development of Ukrainetakes place on the very platform.

The main purpose of this event is to attract the fundraising from international institutions for the recovery of the Ukrainian communities, assisting Ukrainian energy companies in the restoration of the critical infrastructure facilities affected by war aggression as well as to promote an investment opportunities of the cities and regions of Ukraine.

ReBuild Ukraine 4. 0 continues synergy of public and private energy generating, energy distribution, energy supply, construction, architectural and engineering companies, government agencies, territorial communities, city utilities, international donor and financial organisations, representatives of charitable foundations and investment companies, development agencies, twin cities and partner states on a single public platform.

The conference brings together high political and professional representatives of the Ukrainian energy sector as well as foreign authorities, business and investors to discuss issues related to the restoration of Ukraine's energy infrastructure.
