

FIRST IN UKRAINE

UNDERGROUND SCHOOL

KHARKIV

AN AMBITIOUS PROJECT

On the initiative of Mayor of Kharkiv Ihor Terekhov, the first project in Ukraine was launched

UNDERGROUND SCHOOL

a comprehensive underground school where children can study safely even during missile threats.

The innovative underground school had to meet the most modern regulatory requirements for protective structures and create safe conditions for a continuous educational process.

OBJECTIVES

The goal of the underground school project includes several key aspects:

1. PUPIL'S SAFETY

Providing pupils with a safe learning environment protected from external threats.

2. INNOVATIVE APPROACH TO EDUCATION

Using non-standard learning conditions to introduce new teaching methods, interactive classes and practical research.

3. COMMUNITY INVOLVEMENT

Creating a center for the local community where various events, trainings and workshops can be organized, thereby stimulating social integration.

4. CULTURAL ENRICHMENT

Organization of cultural and educational events that promote the development of arts and cultural heritage of the City.

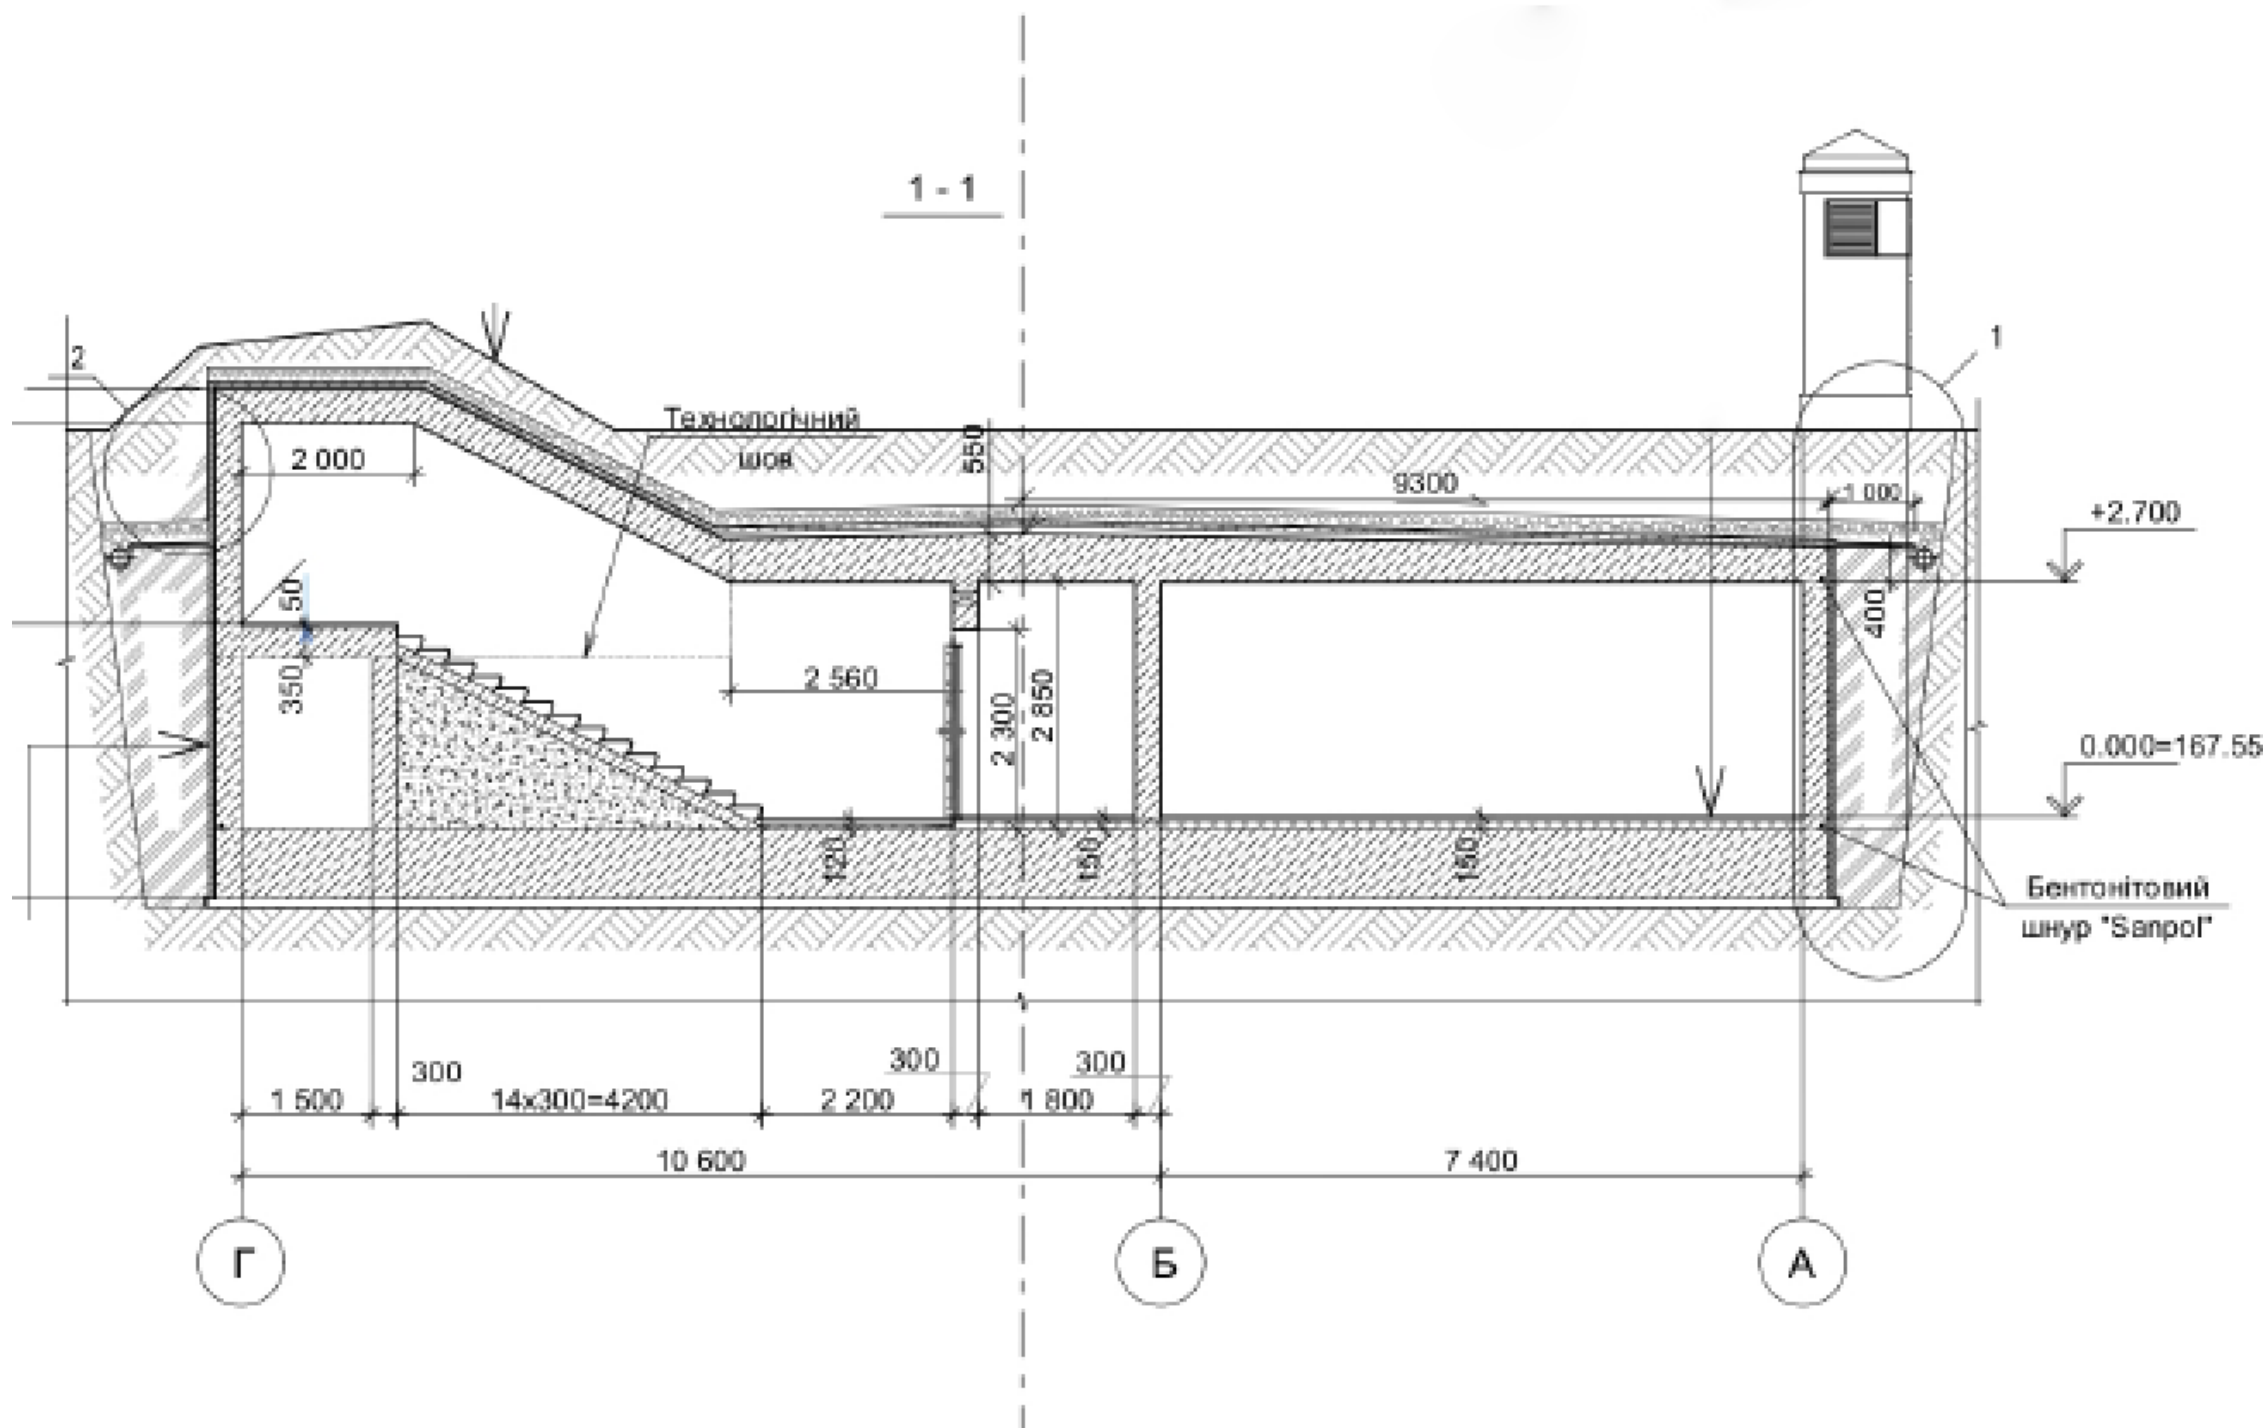

5. LOGISTICS MANAGEMENT

Development of sustainable infrastructure with a focus on efficient use of space, energy and resources.

Such a project can become an important part of the social and educational environment, ensuring not only education but also the safety of the City's residents (it can accommodate 550 people).

PROJECT CHARACTERISTICS

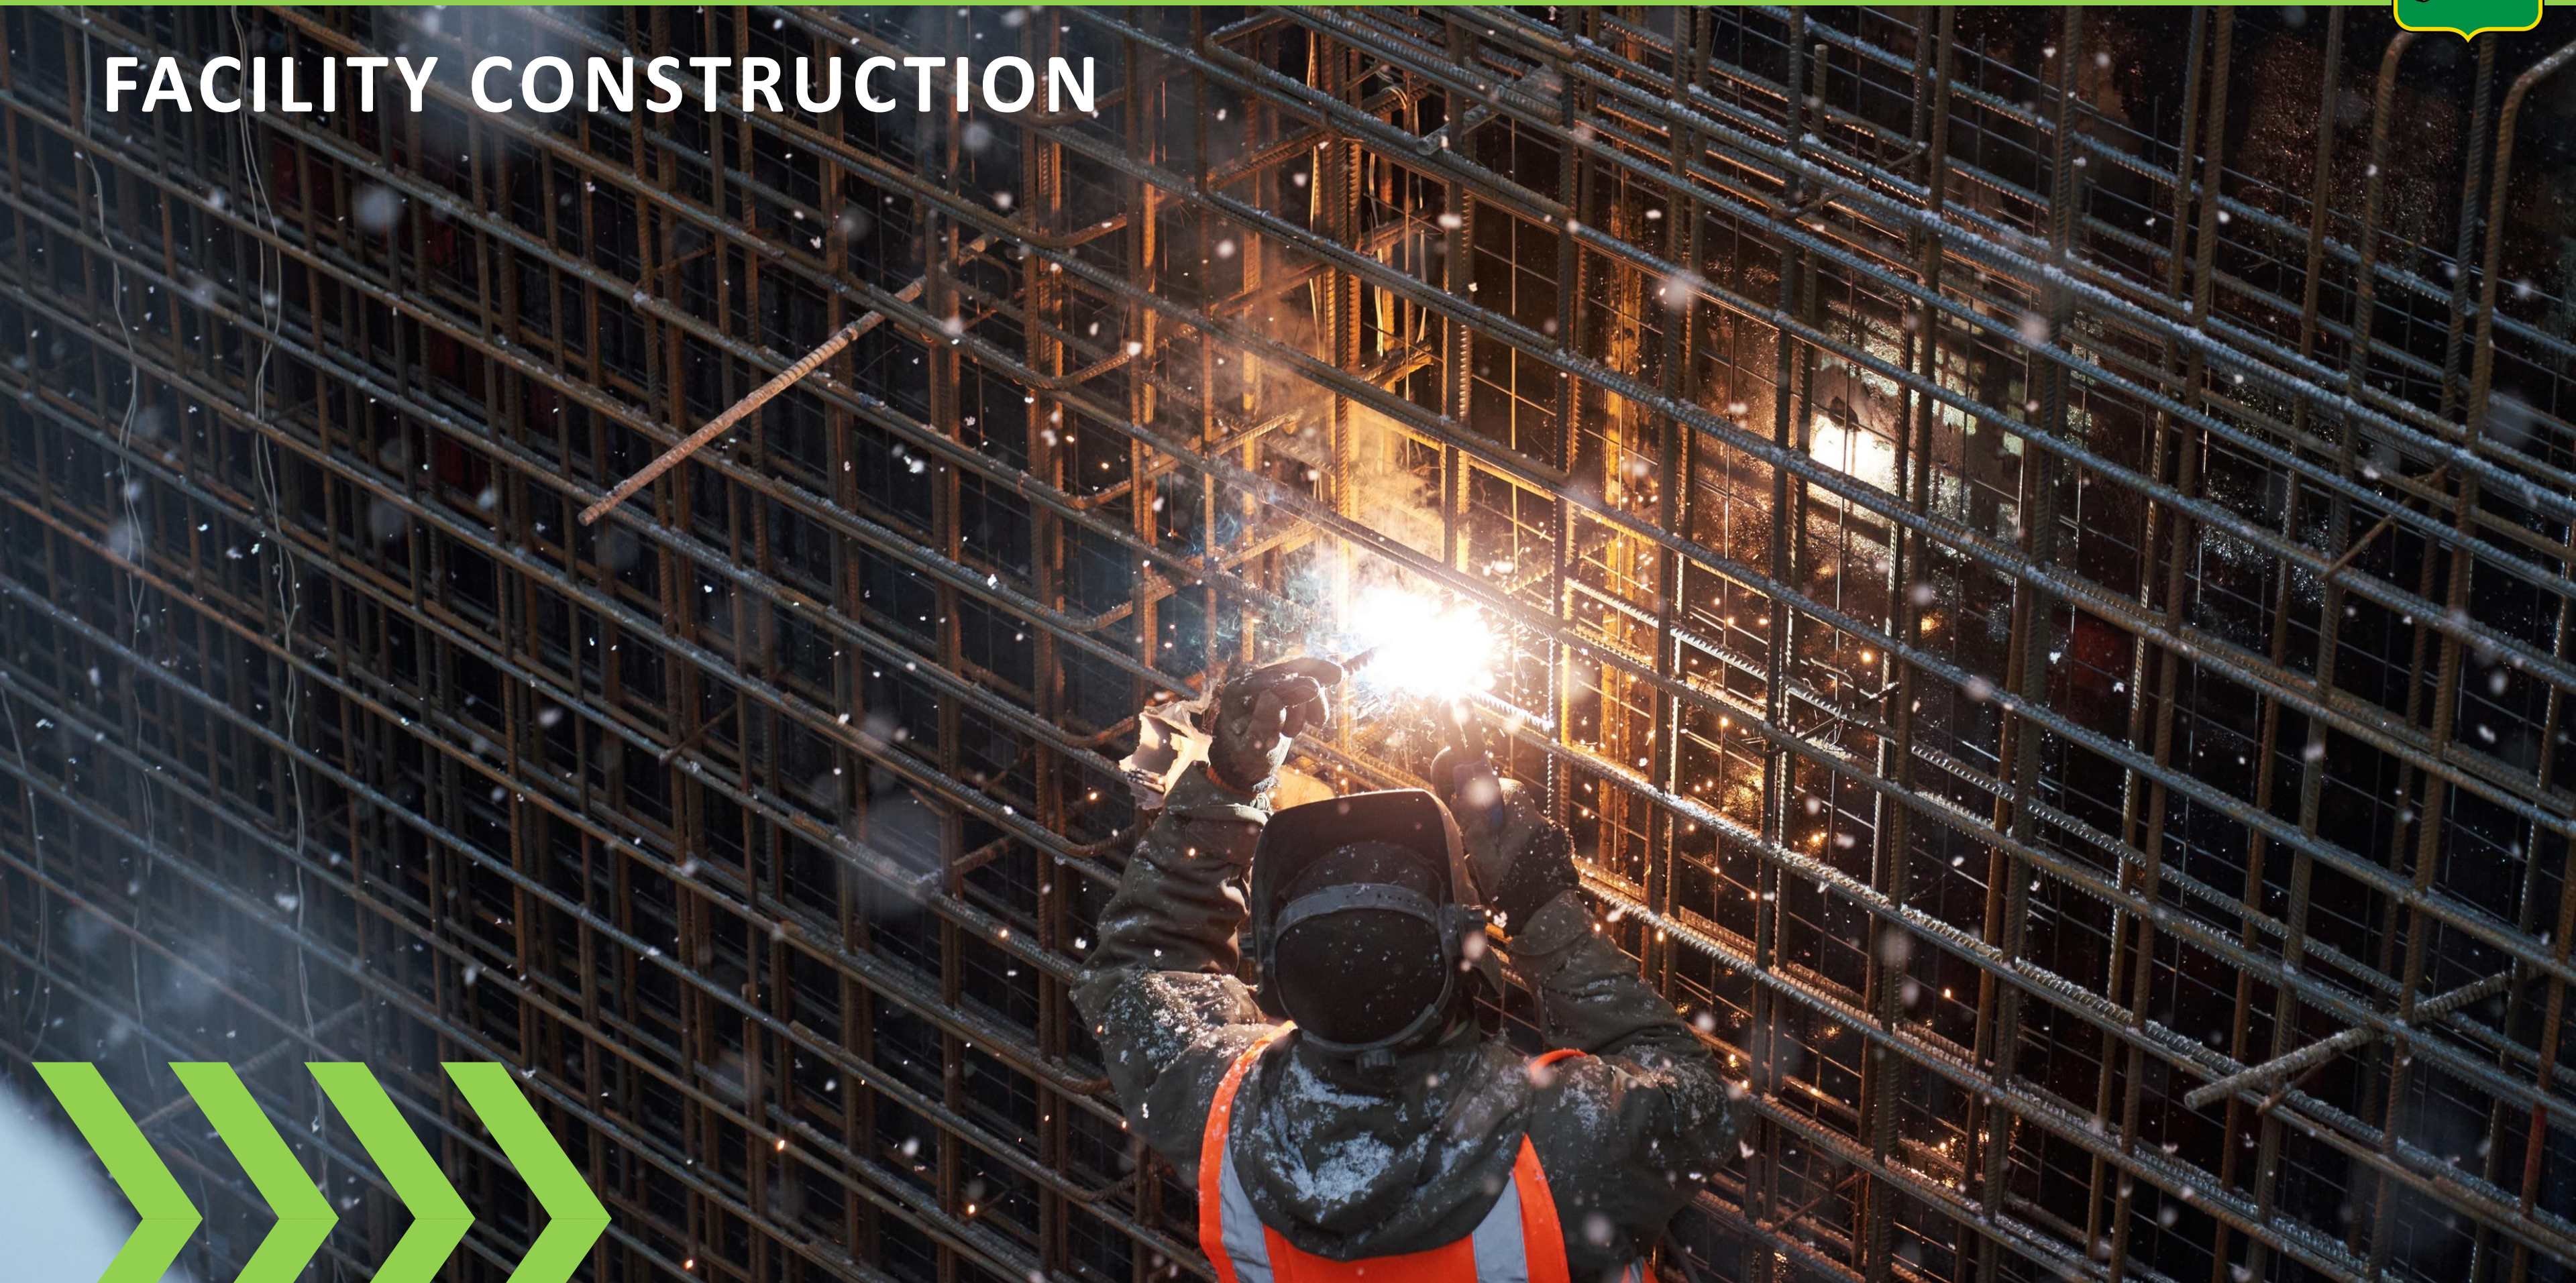

- ✓ Anti-radiation shelter
- ✓ Able to withstand the excessive pressure of an air shock wave of -100 kPa
- ✓ The foundation is buried at 9 meters
- ✓ Floor height - 3 meters
- ✓ Protective embankment - sand, gravel

WILL BE ABLE TO STAND THE DIRECT STRIKE OF THE S-300 MISSILE
