

HAF Mini Maker

With The Enterprise Academy

-
- Enterprise
 - STEM
 - Creativity

The Enterprise Academy are looking for national and regional HAF partners, following the success of our trial HAF pilot programme.

WHO WE ARE?

The Enterprise Academy is the leading Enterprise education CIC in the UK, we work with young people in formal and informal settings including out-of-school settings, activity provisions, NCS programmes, HAF programmes and schools and PRU's.

The Enterprise Academy aims to empower and inspire every young person through enterprise education, giving them the skills and motivation to make and create change.

Our programmes focus on Enterprise in its broadest sense encouraging young people to see opportunities in the every day, think outside of the box, make and create, work as a team, speak and lead.

The Enterprise Academy has delivered a successful national pilot of a number of HAF programmes aimed at young people aged 6-10, and 11-14.

Theme focuses include: Enterprise, STEM, innovation, creativity, movement and health.

After the success of the programme we are looking for partner organisations.

The Enterprise Academy are looking for one national partner or multiple regional partners to support with its roll out. The partner/s organisation would lead on regional applications, recruitment of young people and catering.

The Enterprise Academy would focus on high quality programmes and delivery, staffing and young person enrichment.

PARTNERSHIP OPPORTUNITY

The Enterprise Academy

- Support application
- Lead activities
- Interactive fun session plans (Enterprise, STEM, Innovation, creativity)
- Movement/Sport activities and food education
- Equipment and Resources

Successful Partner Organisation

- Lead on application
- Oversea young people, including recruitment and catering.

TESTIMONIAL

"The Enterprise Academy delivered a fun engaging programme that was engaging, energetic and educational. The kids enjoyed all of the activities and were notably more confident each day, developing lots of key skills and having fun. They all had stories to share, and wanted to share what they had done and created. The Enterprise Academy's activities really complemented our HAF programme and we look forward to working with them again"
