Academy deliver  
high energy  
workshops around  
enterprise,  
innovation, public  
speaking, the world  
of work, confidence  
and wellbeing.**

# WHO WE ARE?

---

The Enterprise Academy is the leading Enterprise education CIC in the UK, we work with young people in formal and informal settings including out-of-school settings, activity provisions, NCS programmes, HAF programmes and schools and PRU's.

The Enterprise Academy aims to empower and inspire every young person through enterprise education, giving them the skills and motivation to make and create change.

Our programmes focus on Enterprise in its broadest sense encouraging young people to see opportunities in the every day, think outside of the box, make and create, work as a team, speak and lead.

---

At The Enterprise Academy we believe that every student has the potential to achieve greatness. Our workshops are designed to equip students with the skills they need to succeed in school, work and life.

We know that education is more than just grades and test scores. It's about developing the whole person and preparing them for the challenges of the real world.

---

That's why we offer a range of workshops using entrepreneurial skills and thinking to teach innovation, wellbeing, public speaking, being work-ready, interview skills, confidence as well as - of course - enterprise.

Our workshops are designed to be engaging, interactive and relevant to the needs of students today. We believe that learning should be fun and our workshops are filled with games, role-plays and hands-on activities that encourage students to think outside the box.

Our enterprise workshop, for example, teaches students how to identify business opportunities, develop a business plan and pitch their ideas to investors. Our public speaking workshop helps students to overcome their fear of public speaking and develop the skills they need to deliver confident and engaging presentations.

While based in the North East, we have worked with schools and colleges all over the country and have seen the positive impact our workshops have on students. They leave our workshops feeling more confident, motivated and equipped to take on the challenges of the future.

At The Enterprise Academy, we believe that every student deserves the chance to succeed. That's why we offer workshops that are affordable and accessible to schools of all sizes. We want to inspire the next generation of leaders, innovators and entrepreneurs.

# TESTIMONIAL

---

"The Enterprise Academy have been a fundamental in developing the wider skills of the young people at the college, every day delivered from enterprise to wellbeing has been fantastic, educational and so much fun. We have had the team in on the first day of term and last, with full year groups and small classes the days are always adapted as needed, interesting and high energy. This year we even trialled the politics workshop and even that was a hit. Won't hesitate to book again.
