# A personal message from Matthew Bray

---

Thanks for requesting a copy of our brochure. I'm Matt Bray, a qualified carpenter who started making bespoke fitted furniture in 2001.

The business initially attracted discerning customers who demanded the exacting standards, individuality and personalisation that come with a carpenter's service. However, I also wanted to help more people achieve the home of their dreams by making transformations more affordable. So, I developed a systematic approach to combine cabinet maker thinking and customisation with modern manufacturing.

The result is more choices, greater flexibility, and more opportunities to achieve your perfectly fitted lifestyle. My unique system overcomes the limited range of options associated with many high-street brands, provides superior quality over flat-pack furniture, and opens up endless possibilities for style, size, shape, texture and colour.

I can't wait to see how we can help.
