

# LCDFOREST CASTLE

Residential complex Forest Castle is the third stage of

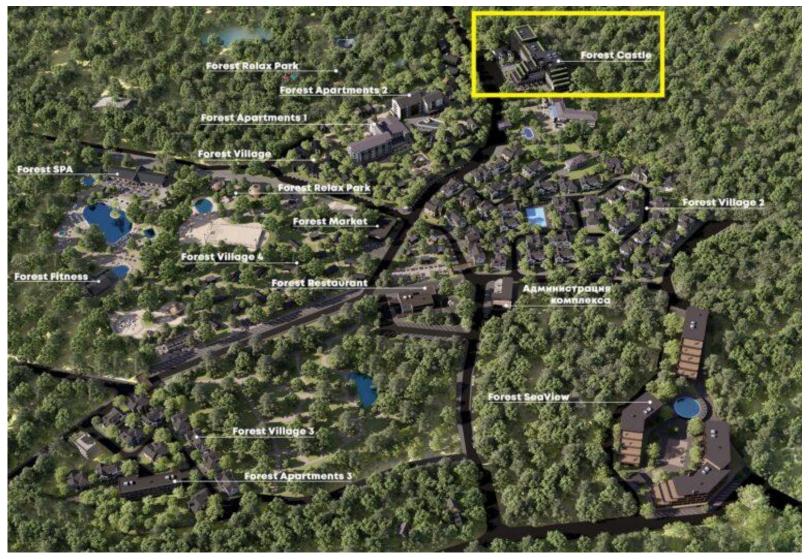

construction of our global project called Forest Club in Varna (Bulgaria). As in our previous residential complexes, we adhere to non-high-rise buildings, which gives additional comfort to our residents. Area of the entire house: 7400 m2, 5 floors + 1 basement. A significant number of apartments with terraces from 12 to 30 m2.

Forest Club is located in one of the most beautiful Black Sea resorts in Bulgaria, near the famous Kabakum beach. The main advantage of its location is its proximity to the sea - just 15 minutes walk and you will find yourself on gorgeous beaches. Forest Club is ideal for both summer holidays and year-round living.

The concept provides for a closed area with infrastructure and entertainment, thought out to the smallest detail, operating year-round. Property in the Forest Club will not only be an ideal holiday destination, but also an excellent investment that will generate profits throughout the year.

#### WE WILL DO EVERYTHING FOR YOU!

The territory of our town

The house will be built on the territory of our Forest Club. This is approximately 1.2 hectares of land in a green zone, but at the same time not far from the sea (15-20 minutes walking distance). With a children's playground, BBQ area, swimming pool, food courts, swimming pool, restaurant, recreation areas and various activities for active pastime (ping pong, quad bike rides, etc.)
