

This project is a continuation of the AquaView Boutique Hotel, which already exists on the Black Sea coast.

The long beach, up to 100 m wide in some places, will enchant you with its fine golden quartz sand. Warm summers allow you to sunbathe from May to October. The average air temperature in summer rarely exceeds 27 °C, and the calm and clear water remains warm (24-25 °C) even at night. On the Golden Sands there are drilled healing warm, mineral springs that give health and beauty to people all year round. Enjoy excellent conditions for relaxation, recovery, entertainment and sports. The resort has received the
