

HEALTHCARE SYSTEM OF KYIV REGION

HEALTHCARE SYSTEM OF KYIV REGION

Supercluster medical institutions

7 institutions

Cluster medical institutions

10 institutions

General health care facilities

17 institutions

Primary care providers

(outpatient clinic, paramedic and obstetric center)

56 facilities (761 units)

Center for emergency medical care and disaster medicine

1 institution

Professional medical colleges

4 institutions

THE FOLLOWING PROJECTS ARE OUR PRIORITY

Creation of a rehabilitation system in the region

Modernization and reconstruction of health care facilities

Equipment upgrade

Energy independence and preparation for the winter period

Modernization of medical colleges with the purpose of training medical personnel for future work

OUR MAIN PROJECTS

**Kyiv Regional Center
for Rehabilitation
Medicine**

**Ivankiv Central
District
Hospital**

**Vasytkiv
Multidisciplinary
Intensive Care Hospital**

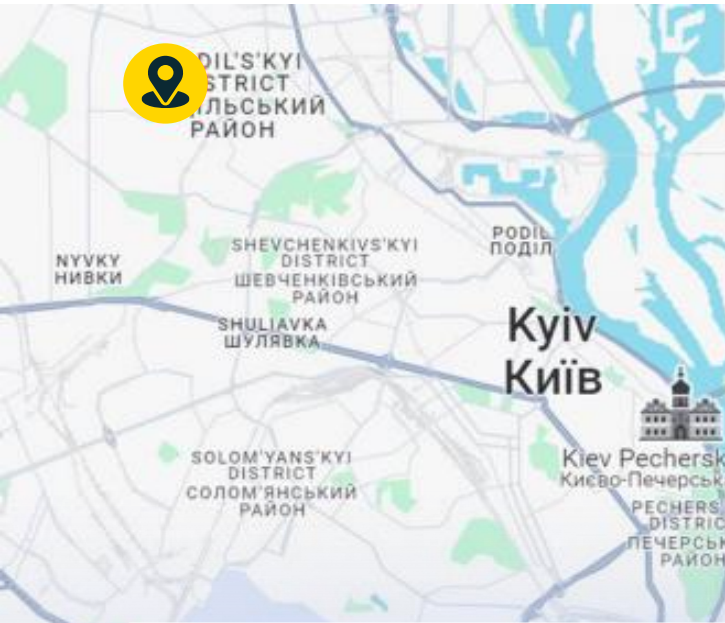

**Borodyanka
Central District
Hospital**

ONE OF THE PRIORITY PROJECT

**KYIV REGIONAL CENTER FOR REHABILITATION MEDICINE,
which will be a full-cycle center for the patient
new modern approach to rehabilitation**

KYIV REGIONAL CENTER FOR REHABILITATION MEDICINE

Services: surgery, orthopedics and traumatology, psychiatry, clinical laboratory diagnostics, therapy, physiotherapy, surgical dentistry, and others.

Approximate budget:

3 476 740 602.00 UAH

Construction:

3 years

The initiator of the creation:
Kyiv Regional Military Administration

49, Pivnichno-Syretska Street, Kyiv

The medical center employs

121 doctors (93 of them are doctors of the highest category).

› Advantages:

- Location in the green zone of Kyiv;
- Good transport accessibility, including by public transport;
- The size of the plot meets the needs of medical institutions.

› Challenges:

- Demolition of capital structures of the building and engineering networks;
- Outdated medical equipment;
- Lack of modern equipment for rehabilitation, diagnostics, and laboratory tests;
- Non-compliance with modern energy efficiency standards.

IVANKIV CENTRAL DISTRICT HOSPITAL

ORGANIZATION OF THE OUTPATIENT REHABILITATION DEPARTMENT

The project has investment attractiveness

- ▶ The Ivankiv Territorial Community is located at a remote distance from the nearest settlements where rehabilitation services are provided.
- ▶ There are no institutions that provide rehabilitation services in the neighboring communities (Polyssya, Dymer).
- ▶ The target audience of the project is about 25,000 people that need rehabilitation services:
 - Persons injured as a result of the Russian armed aggression.
 - Persons injured as a result of the Chernobyl nuclear power plant accident.
 - Adults and children with disabilities.

Estimated cost:

100 000 USD

VASYLKIV MULTIDISCIPLINARY INTENSIVE CARE HOSPITAL

RECONSTRUCTION OF PREMISES ON THE II FLOOR OF THE CHILDREN'S MEDICAL BUILDING UNDER THE LOCATION OF THE IN-PATIENT REHABILITATION DEPARTMENT

The project has investment attractiveness

Estimated cost:

2 000 000 USD

- ▶ The project involves the reconstruction of the premises on the 2nd floor of the children's medical building.
- ▶ The purpose of the reconstruction is to accommodate the inpatient rehabilitation department of Vasytkiv Multidisciplinary Intensive Care Hospital.
- ▶ The department will have a capacity of 30 beds.
- ▶ The project is under the Vasytkiv City Council.
- ▶ The project location is at Kyivskiy Shlyakh, 87, Vasytkiv, Kyiv region.
- ▶ The total area of the project is 1,436 sq.m.

BORODYANKA CENTRAL DISTRICT HOSPITAL

CONSTRUCTION OF MEDICAL FACILITY

The project has investment attractiveness

- ▶ Improve the quality of specialized medical care provided to the population of the region.
- ▶ Create comfortable and dignified conditions for patients and staff in the facility.
- ▶ Ensure accessibility for vulnerable population groups.
- ▶ Consolidate all medical services in one building to:
 - Allow optimization of medical care provision.
 - Implement advanced treatment techniques.
 - Ensure quality communication among specialists.

INSTALLATION OF SOLAR PANELS

10 successfully implemented projects in Kyiv region

PROPOSAL FOR EQUIPPING HEALTHCARE FACILITIES WITH SOLAR PANELS

12
institutions

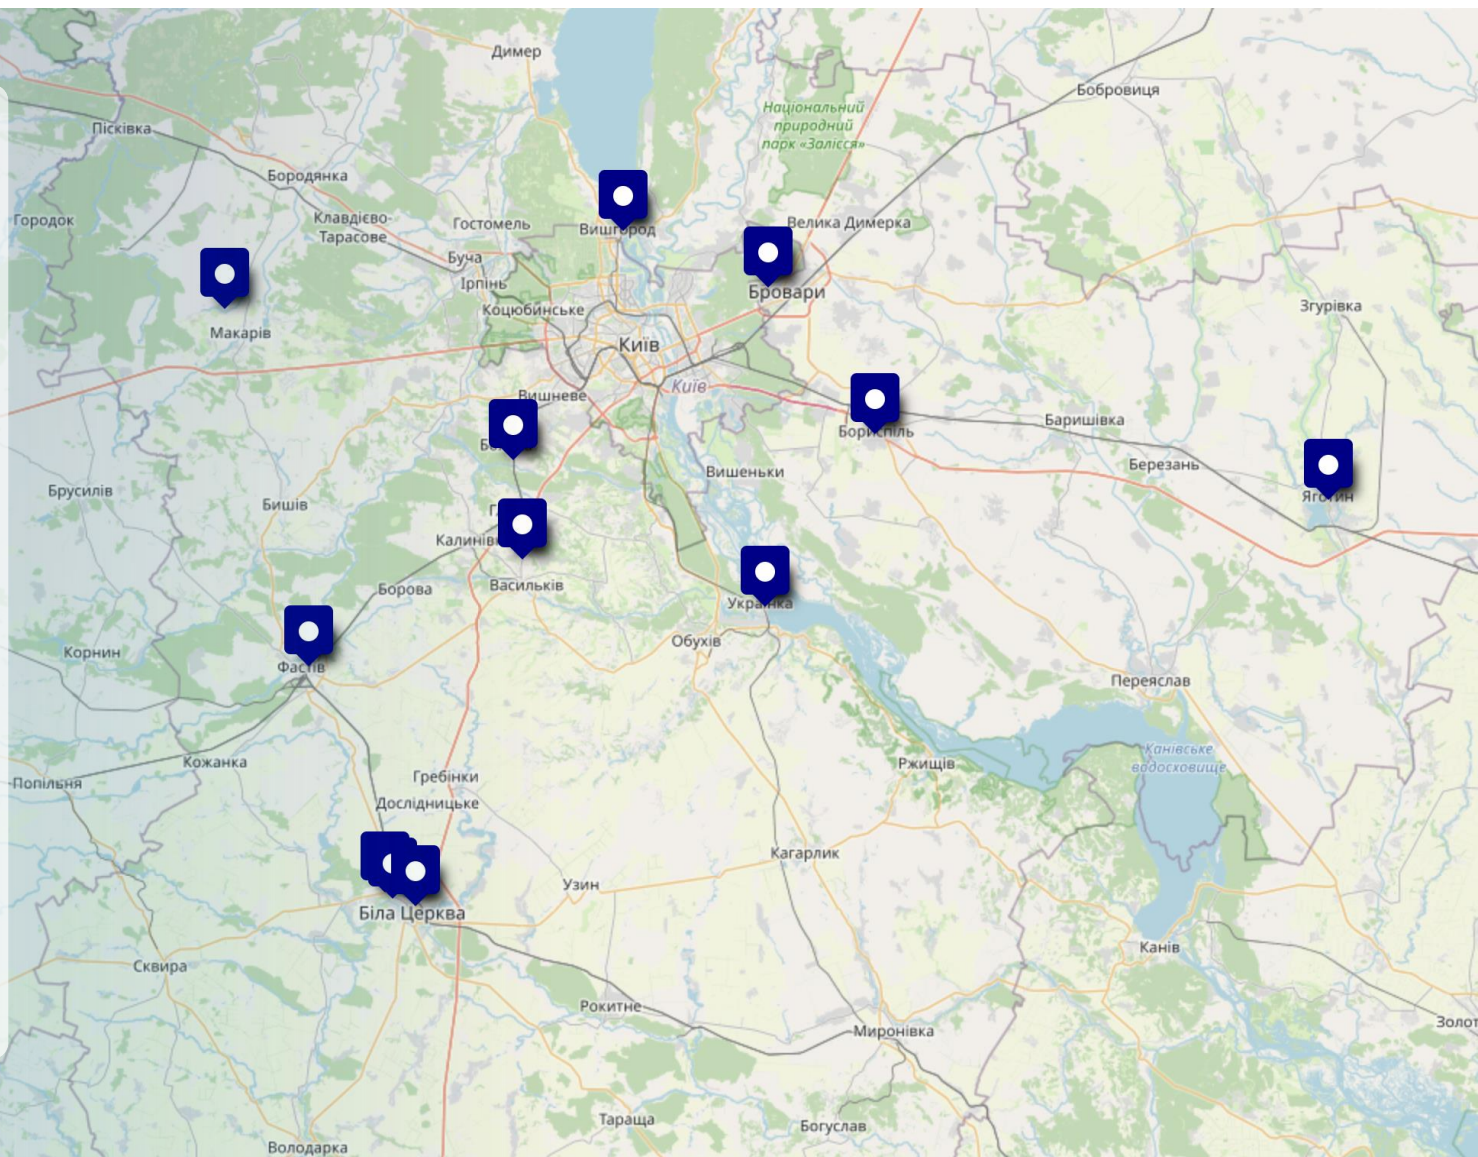

62 *outpatient clinic,
paramedic and obstetric centers*

1884 *students of Medical
Colleges*

2773 *patients*

PROVISION OF BACKUP SOURCES OF WATER SUPPLY (WELLS)

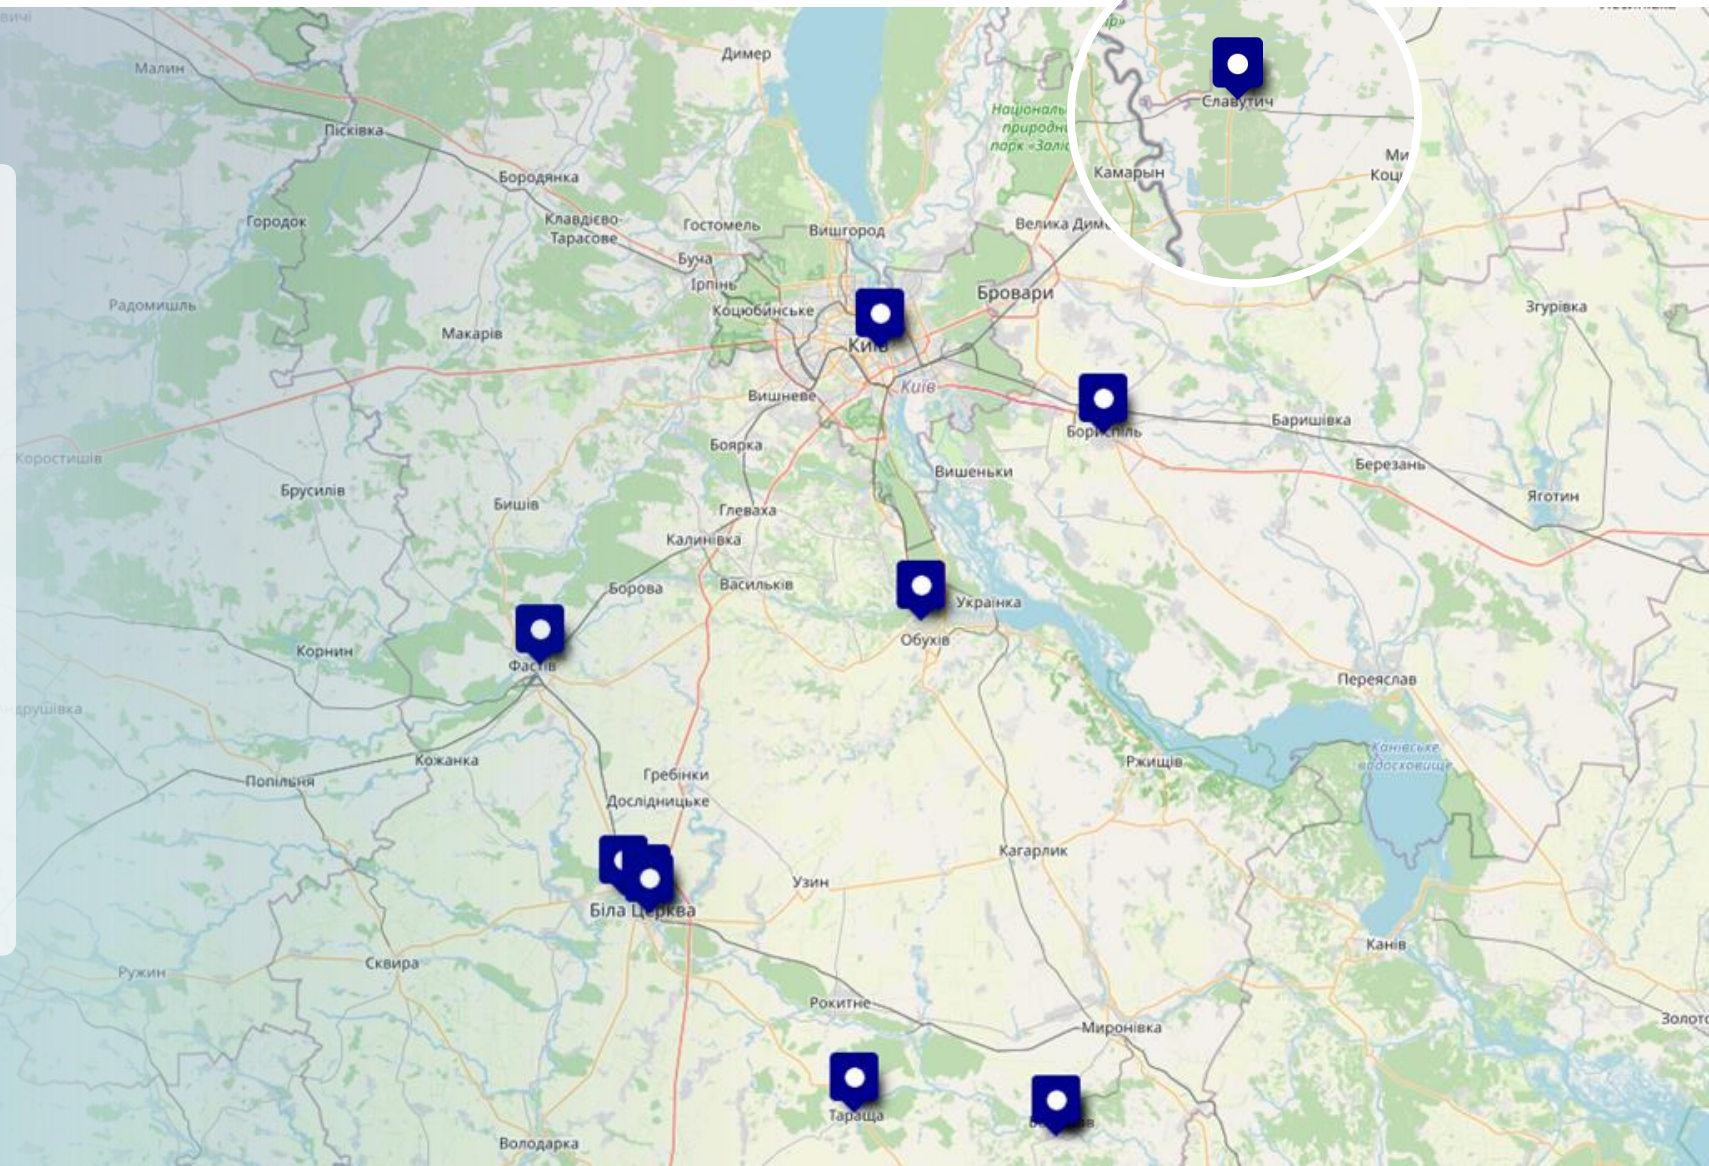

10
institutions

 estimated cost of

12 000 000 UAH

PROVISION OF BACKUP SOURCES OF HEAT SUPPLY (BOILER ROOMS)

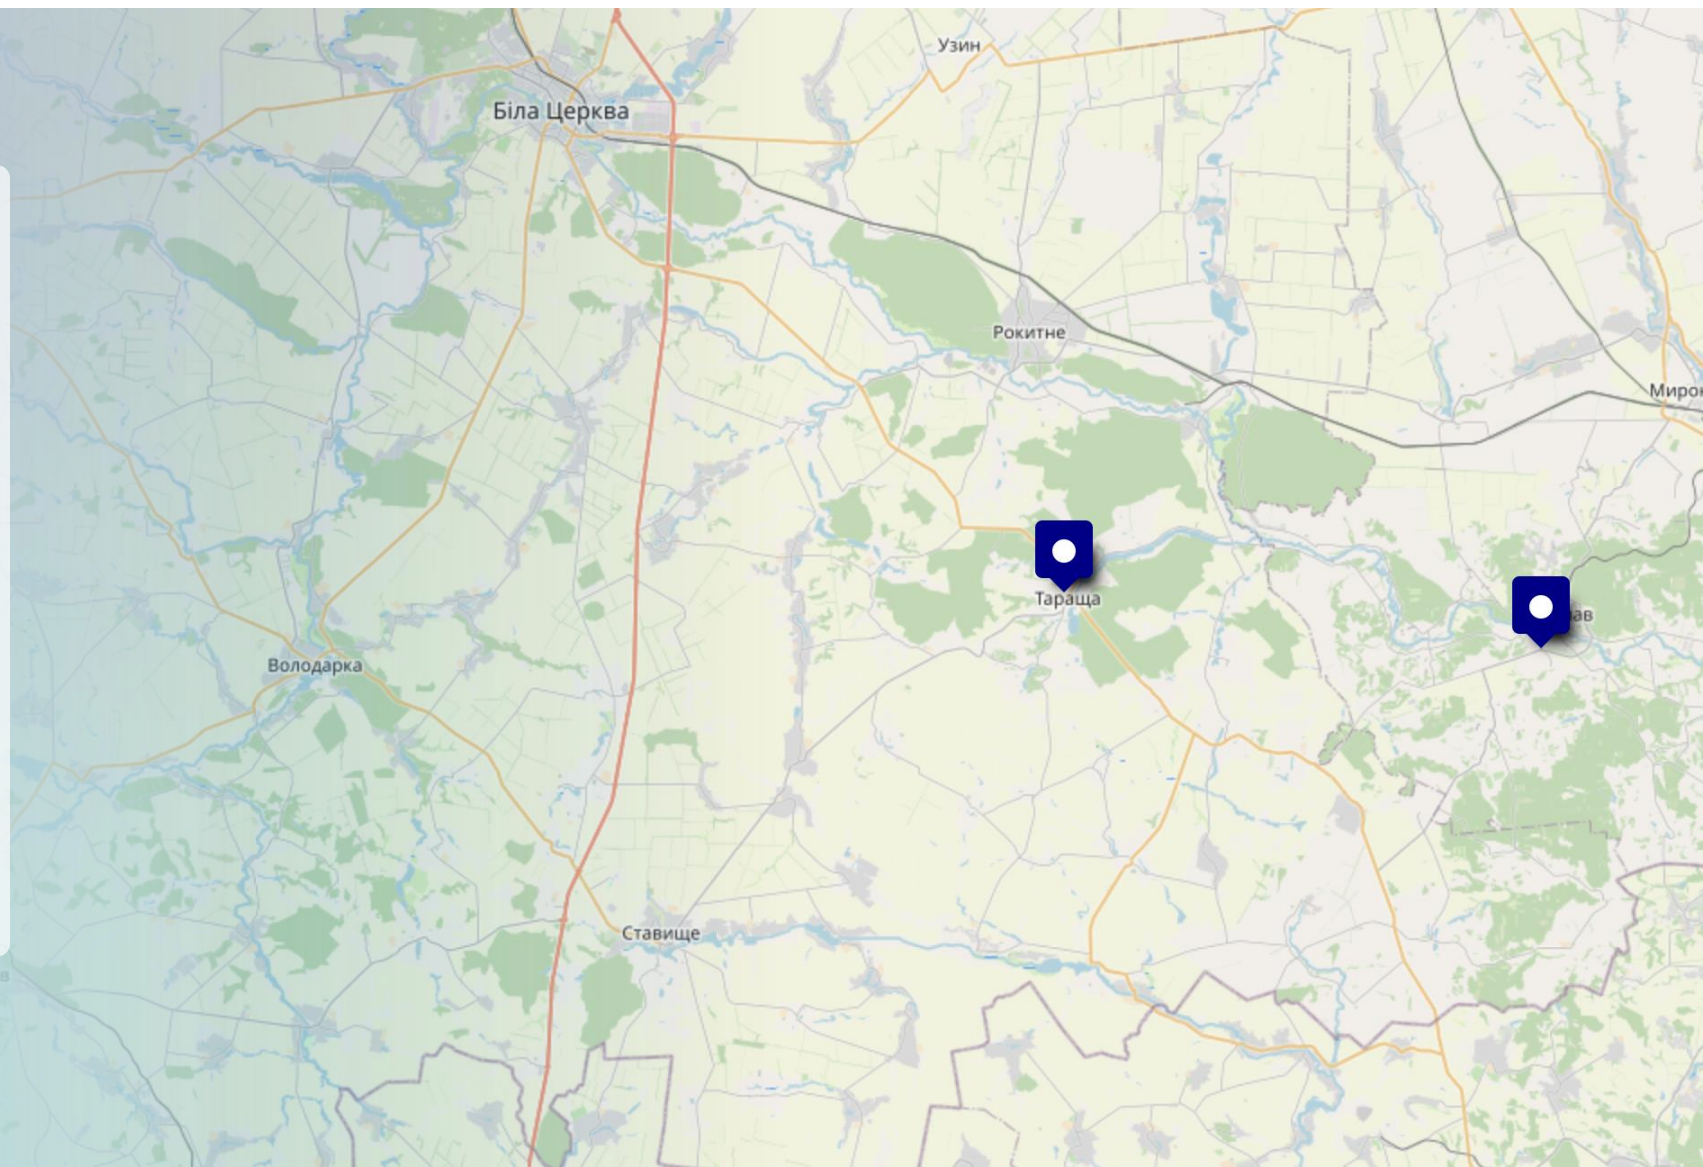

2
institutions

 estimated cost of

5 900 000 UAH

EXPECTED RESULTS

- implementation of the principle of guaranteed/free choice for all the users of the healthcare system, first of all for defenders of Ukraine
- increase of the level of quality of medical services
- creation of a complete cycle of treatment for the patient

Thank You for attention!
