30+

infrastructure projects in Ukraine

Construction and Building Back Better

Activities & Impact

- **Design, new construction & reconstruction in health, education, and energy sectors**
- **Projects at all scales:** from emergency repairs to large buildings & shelters (>2,000 m²)
- **Thermal modernization of schools** (roofs, façades, engineering systems)
- **Energy resilience & green construction** for sustainable, efficient public infrastructure
- **Recycling & safety:** construction waste reuse, local materials, and asbestos management

Energy & Circular Construction

Energy efficiency

Thermal modernisation of schools and hospitals

E.g. Kyinka school expected to save the community 50% on heating costs

Health & Social Protection

Modernization of medical infrastructure

Koriukivka Central Hospital

Reconstruction of the Neurology and Rehabilitation Department, replacement of elevator equipment

Area: 1100 m²
Status: completed

Pryluky Central City Hospital

Major renovation of the 3rd and 4th floors of the surgical department and replacement of 3 elevators

Area: 2500 m²
Status: in progress

Chernihiv Regional Blood Center

Medical equipment, technology and supporting construction works

Gross area: 2000 m²
Status: in progress

Education & Skills Development

Infrastructure for continuous access to education and civil protection

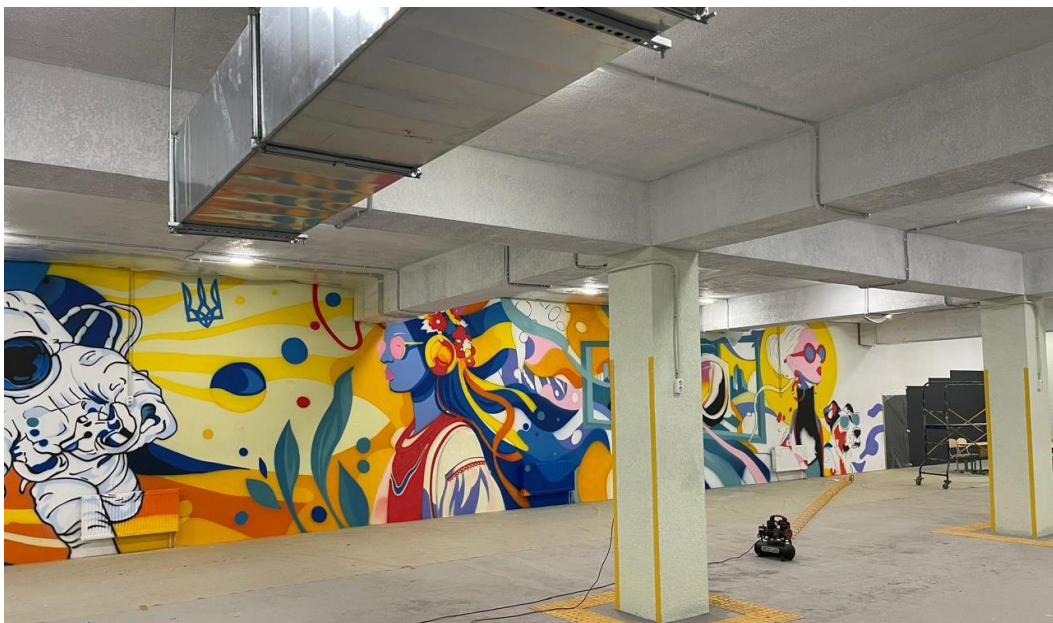

Construction of 3 new shelters and rehabilitation of 4 existing shelters.
Enabel is participating in the Civil Protection Shelter Coalition initiative

Baryshivka

New construction of a dual-purpose protective shelter

Area: 1200 m2

Status: completed

Novi Petrivtsi

New construction, Nuclear fallout protection shelter

Area: 600 m2

Status: completed
