HIC TOKEN

**Is the world's first token whose task is to combine
the cryptosphere with dollar.**

HIC – not a government payment system

The payment system enables people to convert US dollars into HIC tokens at a fixed exchange rate one to another. Thanks to the HIC token, you can conduct financial transactions anywhere in the world anonymously.

We have created a payment system for the years to come. A transparent policy allows a person to see how it is developing in real time. HIC provides elite service and unique privileges at any time in any corner of the world for the most demanding customers.

Introduction

Cryptocurrencies have already begun to change the global housing landscape, and their influence is poised to significantly influence the world in the future.

Cryptocurrencies, like Bitcoin and Ethereum, have served as pioneers, challenging the traditional systems by offering decentralized, secure, and transparent alternatives.

We created a business project for the coming years. The company's transparent policy allows the investor to see how the crypto project will develop, what its purpose and goals are.

Philosophy

HIC has a visionary perspective that goes beyond current finances. Today, the financial market and the cryptocurrency market need changes. Many people have long wanted to safely store dollars and transfer outside the regulatory field of government institutions. We were the first to create a tool for you that is capable of this

About Token

The HIC token is the core of the ecosystem of a community of people who want to keep their savings securely.

For our project, HIC has been extremely adaptable to most of the changes taking place in finance, while remaining focused and efficient. That is why we have developed a program that will help the common man keep his funds confidential and safe.

To do this, you need to convert your dollars into HIC token at a fixed one-to-one rate using our system. The client receives a personal digital e-wallet and can use and convert his tokens to US dollars at a fixed one-to-one rate at any time. In this way, you do not need to keep cash at home or friends, and worry about it.

Tokenomic

Total: 1 000 000 000

29 FEB 2024. 22:47:49 +UTC

0xa5b94424f3c53e3d36ae9b5030065f1d7566a6ca

We have created a project that involves defining key stages and tasks, determining their sequence and duration, as well as dividing responsibilities between team members.

Our team created the HIC cryptocurrency for use in the payment system. With this token you join the system, buying it you can store your funds safely.

Where will the funds go?

- 4.8% PRESALLE INVESTMENT
- 9.5% TOKEN CREDITS.
- 76.2% CONVERSION TOKEN.
- 9,5% BONUS INVESTORS.

CONVERSION COMMISSION

Our Business Roadmap

2024

To attract customers, we have created several conversion centers.

1.1 Creation of conversion centers.

1.1.1 At the first stage, we create conversion centers.

1.1.2 At the second stage, the search and attraction of the first customers.

1.1.3 The third is the search for exchange partners in the whole world.

2025

Improvement of the maintenance service.

2.1 Improvement of the maintenance service..

2.2 Opening of new offices of exchange..

2026

Online exchange will allow our clients to receive not only cash, but funds to dollar accounts of other banks..

Disclaimer

This whitepaper aims to offer a comprehensive project description for the purpose of seeking feedback from potential investors. It's crucial to note that HIC directors, consultants, and legal advisors reserve the right to review and modify this document. Please refrain from copying or disseminating any part of this white paper without incorporating this Risk and Disclaimer section. No section of this white paper establishes a legal relationship with the recipient or binds HIC legally. It's important to acknowledge that updates to this information may be published at any time.

The regulatory landscape regarding HIC Token and distributed ledger technology remains uncertain or unsettled across various jurisdictions. The evolution of virtual currencies has led regulatory agencies worldwide to contemplate new regulations or apply existing ones to such technology and its applications, including HIC Token and/or the HIC Network. Regulatory actions might significantly impact Token and/or the HIC Network. In the event of regulatory changes making operations illegal or commercially disadvantageous, the Foundation or the Distributor might cease operations in a particular jurisdiction. An adaptive sales strategy will be employed, adjusting to mitigate legal risks to the extent possible.

Upon considering the purchase, possession, or utilization of HIC Token participation, it's vital to recognize and accept the following risks:

Uncertain Regulations and Enforcement Actions.

The regulatory landscape regarding HIC Token and distributed ledger technology remains uncertain or unsettled across various jurisdictions. The evolution of virtual currencies has led regulatory agencies worldwide to contemplate new regulations or apply existing ones to such technology and its applications, including HIC Token

The team may not provide holders of HIC token with every development detail or expected milestone, leading to inevitable and reasonable gaps in information disclosure.

Development Risk

There's inherent risk associated with the development of the HIC, including unanticipated technical obstacles, price declines in digital assets, virtual currencies or HIC Token, and insufficient funds for development activities.

Security Vulnerabilities

HIC might face threats from malicious groups or individuals attempting to compromise security through attacks like malware, denial of service, consensus-based, spoofing attacks.

Other Risks

There are additional risks, not exhaustively mentioned above, associated with purchasing, holding, and using HIC Token. These risks might materialize in unanticipated combinations or variations and may not be foreseeable by the Foundation or the Distributor. Prior to purchasing HIC token, conducting comprehensive due diligence on the Foundation, the Distributor, its affiliates, and understanding the framework, mission, and vision for the HIC

Risk Assessment

This document is designed to inform users about the various risks associated with utilizing cryptocurrencies. While it aims to offer an overview of these risks, it's essential to acknowledge that it may not encompass every potential risk or its specific relation to individual circumstances. Should you be uncertain about engaging with cryptocurrencies, seeking guidance from a professional advisor is advisable.

Vulnerability to Cyber Attacks

Cryptocurrency exchanges, operating solely in the digital realm, are susceptible to cyber attacks, hacking, malware, and operational disruptions. Despite attempts by exchanges to fortify security measures, the inherent vulnerability of wallets provided by exchanges remains exposed to hacking. The irreversible nature of cryptocurrency transactions means that successful hacking incidents could result in significant losses for users, potentially leading to insolvency for the exchange.

Legal Uncertainty Surrounding Cryptocurrencies

The legal status of cryptocurrencies remains uncertain and subject to ongoing evolution. Most jurisdictions lack definitive statutory or regulatory frameworks to establish the legal nature of cryptocurrency trading. This lack of regulatory clarity may impact a regulator or court's treatment of cryptocurrency-related rights and interests.

DISCLAIMER

This whitepaper aims to offer educational and informational insights into cryptocurrencies without providing any express or implied warranty regarding accuracy, completeness, or fitness for a particular purpose. It is crucial to recognize that cryptocurrencies may be unregulated in your jurisdiction, and their value can fluctuate, potentially subjecting profits to applicable capital gains or other taxes.
