Investment in a large-scale transport and logistics center near Kyiv

## \$65.375.000

Investment amount, USD

A large-scale transport and logistics hub strategically located 26.5 km from Kyiv, near key highways M01 and H07, providing direct access to national and international trade routes.

### Features:

- Two terminals (12 ha and 8 ha) with 60,000+ m<sup>2</sup> of warehouse space
- Separate cadastral plots — operate independently or as one complex
- Multiple checkpoints for high cargo throughput
- Integrated infrastructure: TIR parking, open storage, customs control, container zones
- Rooftop-ready for a 10 MW solar power plant under a “green tariff”

### Development status:

- Land plots prepared
- Master plan completed
- Utilities, checkpoints, warehouses, and energy systems designed

### Impact:

- Strengthens Ukraine's logistics capacity
- Optimizes cargo flows for domestic and international trade
- Potential to integrate sustainable energy solutions

### Funding:

- CapEx: \$65.4M
- Construction period: 1.5–2 years, in 4 stages
