Bailey Ave BRT

Hello Buffalo Neighbors,

Niagara Frontier Transportation Authority (NFTA-Metro) is excited to provide an **update on the Bailey Ave BRT project**! As you may be aware, NFTA-Metro, along with partners like the City of Buffalo, are building on prior studies to take the next steps to plan, design, construct, and implement Bus Rapid Transit (BRT) on Bailey Avenue, along with other infrastructure improvements.

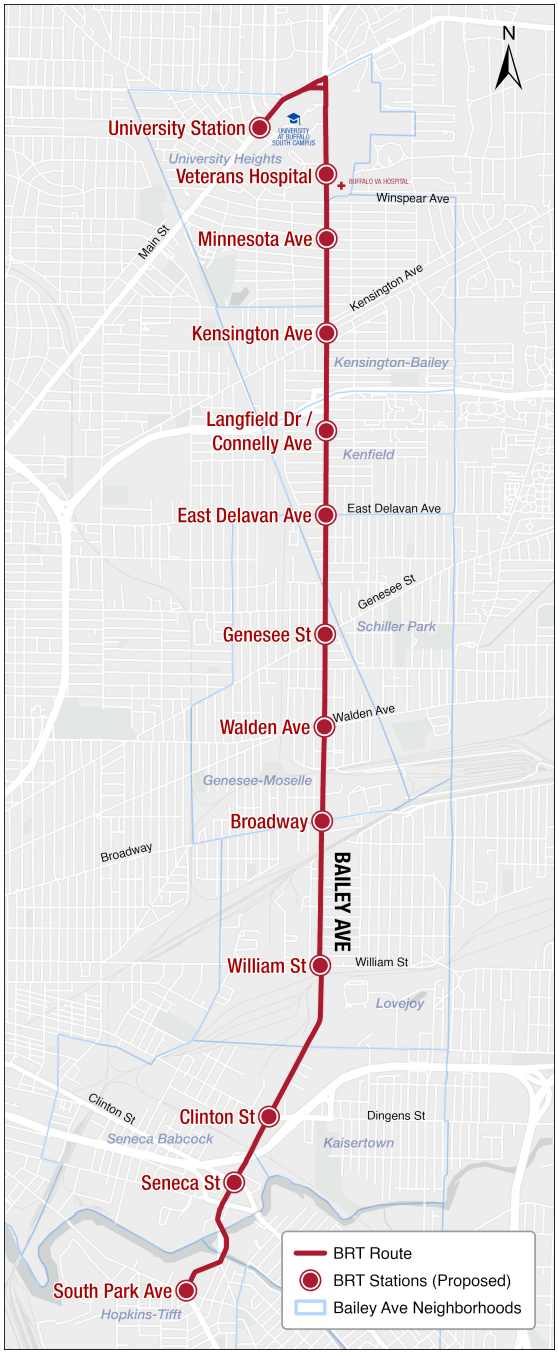

Bus Rapid Transit routes have shorter wait times, special traffic signals and lanes for buses, and “stations” that make for a more comfortable passenger experience. The Bailey Ave BRT project also includes upgrades to the sidewalks and streets to make the entire corridor safer. More information on the project can be found at NFTA-Metro | Bailey Avenue BRT.

---

1. As part of this project, NFTA-Metro is asking the community to provide feedback on their experiences on Bailey Avenue and their hopes for future improvements. To share your thoughts, we ask you take a short survey by visiting https://www.surveymonkey.com/r/BaileyAveBRT. If you complete the survey

and enter your email address or phone number, you will be entered into a drawing to win one of five $25 Tops gift cards! The survey closes on December 24th, so please complete it now!

2. Bailey Ave BRT Community Ambassadors have started their community outreach, so please keep an eye out for them! They will be visiting homes and businesses along the Bailey Avenue corridor to update the community on the project and solicit feedback. Please check the NFTA-Metro | Bailey Avenue BRT website in the coming weeks for more information on your Community Ambassadors!

3. Three public meetings, two in-person and one virtual, are being scheduled for February 2025. Be on the lookout in early January for the dates and locations of these meetings. You can check the project website or NFTA's social media posts for updates.

4. Lastly, we would like to invite you to sign up for Metro Alerts, a convenient way to get up-to-date information from NFTA-Metro. Just click the link and follow the instructions to get text or email alerts sent directly to you. Make sure to expand the "Rail Alerts and Other News" section and select "Bailey BRT."

We look forward to working with you on this important project!
