KAYCAN
BUILDING LASTING IMPRESSIONS

Unparalleled Quality

Superior performance, outstanding beauty, durability, and low maintenance are the standards of excellence which distinguish Kaycan products from its competitors. Kaycan's passion for quality, beauty, and performance has enabled Kaycan to remain a market leader in the manufacturing of vinyl and aluminum building products in North America for over four decades.

State-of-the-Art Manufacturing

Kaycan is one of the world's leading manufacturers of vinyl and aluminum siding, rainware, as well as coil products. We own and operate more than 1,500,000 square feet of technologically advanced manufacturing facilities in eleven plants. Our manufacturing plants follow rigorous quality control and testing requirements that meet and exceed the most stringent industry and government standards, at all stages of manufacturing. With over 2,500,000 square feet of distribution space in 60 distribution centres across North America, we are able to meet our customers' most stringent delivery requirements.

Innovation and Technology

Kaycan is committed to improving customer satisfaction through continuous strategic improvements to manufacturing processes. While the look and style of Kaycan products are inspired by timeless quality craftsmanship, it is modern engineering and technology that enhance overall performance, durability, and ease of maintenance.

Experience and Reliability

As a family owned and operated company for over four decades, quality care, reliability, and trust remain our most important values. An extensive range of products available in locations throughout the globe, supported by decades of experience and outstanding physical and human resources, enable us to consistently deliver on schedule and to specification.
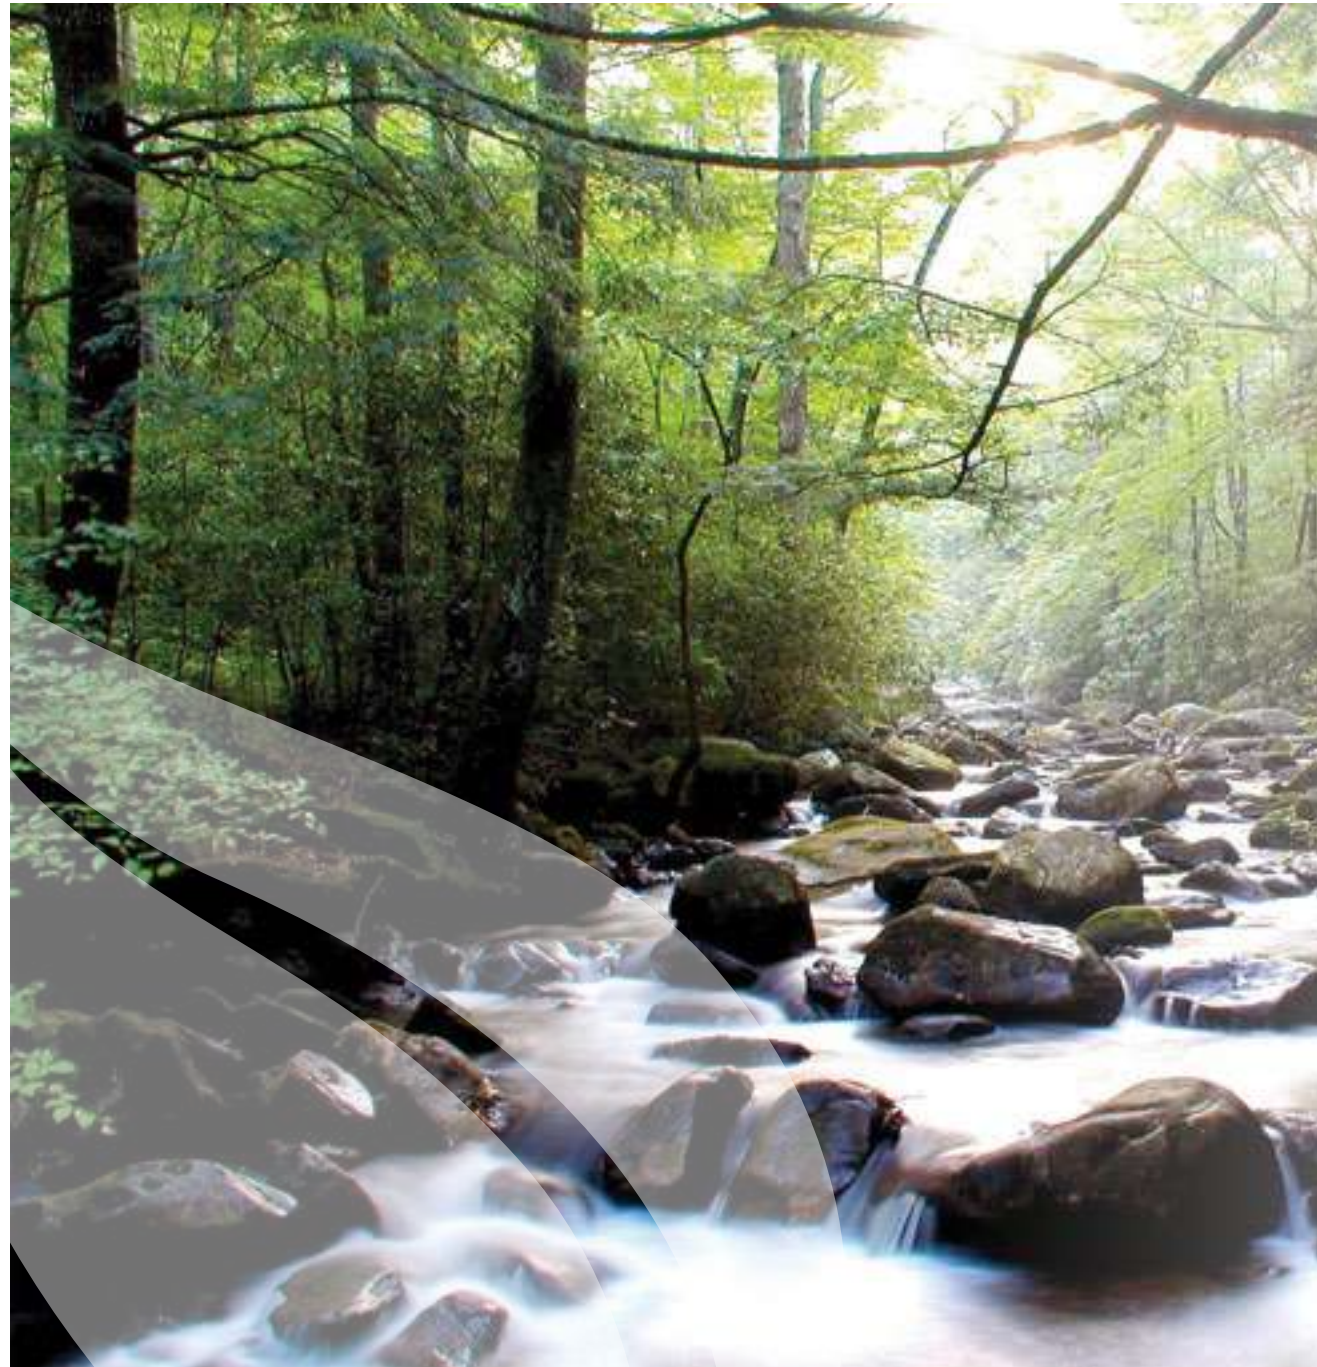

SUSTAINABLE MANUFACTURING

Kaycan leads the way in the ecologically-conscious manufacturing of quality vinyl and aluminum building products. We have implemented stringent and effective raw materials usage and energy reduction processes in our eleven manufacturing plants, as well as environmentally conscious programs in our distribution centres and corporate offices. These programs and processes have been successful in helping us attain our objectives of reducing waste and energy consumption, and of recycling over 99% of materials in the manufacturing process.

Kaycan is an eco-conscious manufacturer committed to continuing to refine business strategies and activities that meet the needs of the enterprise today, while protecting, sustaining, and enhancing the human and natural resources that will be needed in the future. Kaycan has developed its R3v® sustainable manufacturing program with the objective of reducing its ecological footprint by recycling vinyl siding post-consumption at the end of its life cycle.

KAYCAN

1. GATHER YOUR VINYL SIDING SCRAP
2. DROP OFF YOUR VINYL SIDING SCRAP
3. RECYCLED VINYL IS PROCESSED AT THE MANUFACTURING FACILITY
4. PROCESSED VINYL CREATES NEW PRODUCTS

Kaycan has been manufacturing quality vinyl siding and trims for more than a quarter century. All of our vinyl siding and accessories are formulated with our unique and exclusive Duratron™ vinyl formula that has evolved to become a reference on the market for its durability and fade resistance.

Kaycan's extensive lines of vinyl siding in numerous profiles including traditional double 6'' siding, rustic insulated vinyl log siding, and polymer shakes and shingles are designed to enhance any architectural style.

VINYL SIDING AND TRIMS

Kaycan vinyl siding offers a rainbow of colors as diverse as nature's own. Designed for maximum style, durability, and longevity, our complete trims and accessories lines are the perfect finishing touch for the look you desire.

Whether you are looking for a dramatic architectural flair or subtle accent, Kaycan's complete trims and accessories ensures a custom look and is the perfect finishing touch to any home.

All Kaycan vinyl sidings are supported by a lifetime limited warranty.

Latest Market Trends

Designers and industry experts predict that the most popular colors for home exteriors are dark, bold colors.

Being at the forefront of the industry, Kaycan's DaVinci line offers the most and darkest colors in the market. Intense heat from the sun's rays can take a toll on the exterior of your home. This can cause panels to distort and fade. Darker colors present an even bigger challenge because they absorb more of the sun's damaging rays.

Kaycan's research and development team aggressively tested dark colored vinyl siding in laboratories and field tests, in order to combat these issues.

The results prove that its unique properties and heat resistance capabilities are ideal for these new color trends.

KAYCAN

VINYL SIDING TRIMS

Vinyl Siding Trims

Architectural expression through infinite trim and accessory options. Whether to transform an ordinary outside corner into a distinctive design element, to protect your walls from water infiltration or to add a decorative accent, Kaycan Premium Vinyl Trims can add form and function to your home.
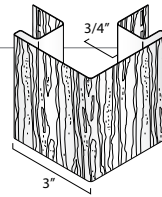

· Manufactured with Kaycan's exclusive Duratron™ vinyl formula same as Kaycan vinyl sidings.
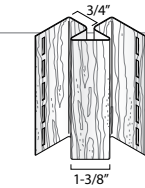

· Available in a wide palette of colors.

ALUMINUM SIDING

Kaycan's Aluminum Siding, Soffit and Trim have long been the established standard within the industry, with a proven track record of over four decades for sturdiness, performance and beauty.

Kaycan's Aluminum products are coated using a proprietary two-coat system and an advanced baked-on thermo-setting Polycoat 9000™ topcoat, giving an extremely durable and fade-resistant paint finish with the highest abrasion-resistant factor on the market.

ALUMINUM SIDING, SOFFITS AND TRIMS
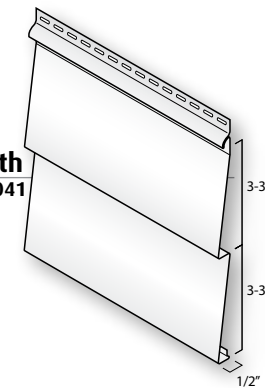

Kaycan's Aluminum siding is available in both smooth and textured finishes, with a complete color-coordinated trim and accessories line. Kaycan also offers the widest range of Trim Coil colors manufactured with the same proprietary technology for the best quality and selection.

Aluminum Siding

Long lasting style. Kaycan's Aluminum siding has long been the established standard in the industry for performance and beauty.

· Two-coat system includes a roller-coated primer and baked-on corrosion inhibitor for long-lasting beauty and performance.

· Guaranteed not to crack or flake.

· Available in smooth and woodgrain in a variety of profiles and colors.

Nature at its best.... KWP Engineered Wood products are the natural choice for any home. Our commitment in offering the highest quality exterior finish products having detailed craftsmanship combined with durability, ease of maintenance and a vast array of color choices is exemplified with KWP.

KWP PREFINISHED ENGINEERED WOOD PRODUCTS

Prefinished Engineered Wood products offer all the advantages of regular wood siding without the drawbacks of rotting, cracking, splitting and termite damage. KWP products are Eco-consciously manufactured with quality additives following a unique and stringent process that increases strength, rigidity, and durability while lessening our carbon footprint through effective raw material usage and energy reduction processes.

KWP PREFINISHED WOOD PRODUCTS

Hampton Shake

KWP Hampton Shake Panels have the appearance and charm of classic shakes along with intricate shadow lines that enhance the appearance of any home. A vintage blend of beauty and craftsmanship combined with modern technology.

· Heavy duty ½" thickness 30% thicker than competitive products.

· Superior design allows for all nails to be hidden.

· Designed Interlock System for precise alignment resulting in ease of installation.

· Baked on factory finish for ultra-low maintenance.

· Available in a full palette of designer colors.

Trim Board

KWP's Trim Board enhances the beauty of any home design. With 4 coats of acrylic paint baked on at high temperatures our trim not only will resist the harshest climates but is the perfect accent to complete any home design.

· Available in 3/4 and 5/4 widths.

· Factory painted eliminates on site painting.

· Won't crack, split, or rot.

· Prefinished on three side and ready to install.

· Uniform thickness ensures ease of installation.

Kaycan's Performance Aluminum Rainware Collection is designed for durability and ease of installation, and is coated with the same thermo-setting polyester Polycoat 9000™ topcoat as Kaycan's Aluminum siding. Performance Aluminum rainware is an easy-to-install, corrosion-resistant, durable and fade resistant system available in rich decorative colors and color-coordinated accessories.

RAIN CARRYING SYSTEMS

Kaycan's Plastmo Vinyl Rainware Collection is available in three different profiles: K-Snap, U-Snap and Classic Half-Round for a modern touch. The Plastmo vinyl rainware line is durable, scratch-resistant and easy-to-install.

KAYCAN

PERFORMANCE ALUMINUM RAINWARE

Performance Aluminum Rainware System

Designed for durability and ease of installation, Kaycan's Performance Aluminum rain carrying system provides a complementary finish and the proper protection to any home's exterior. Coated with Kaycan' Polycoat 9000™ topcoat, Performance Aluminum rainware is corrosion-resistant and maintains a freshly painted look year-after-year.

Architectural Accents, Vinyl and Aluminum Shutters, Roof Ventilation, Gable and Utility Vents, Window Headers and Door Surrounds, are just some of the additions to our product line that underscore our commitment, providing our customers with the quality and innovative products they need to meet the ever changing demands of today's building and remodeling industry.

DECO-ARCHITECTURAL ELEMENTS

Kaycan deco-architectural products are offered in an unprecedented style, color and size selection to add character to any home. These deco-architectural elements are lightweight, easy to handle, and can be easily installed directly on wood, vinyl, aluminum, stucco, brick or hardboard.

Kaycan design accessories are engineered and manufactured to exacting standards. They are maintenance-free, won't crack, split or fade, and are backed by a 40 year warranty.

KAYCAN

VINYL SHUTTERS

Vinyl Shutters

Add curb appeal in an instant with vinyl shutters that echo the warmth of wood and are extremely durable and maintenance free.

· SolidThru™ color holds up in all weather conditions and all climates.

· No scraping, sanding or painting ever needed.

· Available in custom styles and sizes, with one of the widest color palettes on the market.

Gable Vents

Performance, style, versatility and protection. Kaycan Gable Vents have more Net Free Ventilation Area for optimal venting than industry standards. They provide added architectural detail with their woodgrain finish and sharp distinctive features.

· Can be installed on all types of siding.

· Double baffle design provides added protection against wind-driven rain and snow.

· Easy-to-use in a decorative application if a functioning vent is not required.

With insulation, sealants and nails available from the same supplier as your siding, rainware, trim and architectural accessories, Kaycan is a one-stop shop when it comes to finishing a house's exterior.

Kaycan's StyroFold 5 Plus and Sure-Wrap insulation products provide a sound nailing base for your siding and help straighten walls on renovation projects. They help prevent air infiltration, keep wall cavities dry and your home comfortable year round.

Roof Ventilation

Ridgemaster®, Ridgemaster Plus® and Hipmaster®'s patented baffle system works efficiently regardless of wind direction or speed and excels in keeping out weather and insects. Its patented structural ribs make it virtually crush proof.

· Nailing supports and structural ribs designed to ensure a smooth straight roofline.

· Durable copolymer material withstands dents from branches or hammer blows and resists cracking regardless of temperature.

· 40 year limited warranty.
