

Quality Management System

Quality Policy

The quality policy of Gazki EOOD is aimed at continuous improvement of the organization's quality management system, with the aim of satisfying the requested and expected needs of customers in international sales and distributions of metals and other industrial goods for large-scale manufacturing operations as fully as possible.

To ensure this goal, the organization's management is committed to maintaining and continuously improving the efficiency of the quality management system, to meet the requirements of applicable legal and other accepted requirements.

To operate the system:

- We direct our experience, knowledge and efforts to fully clarify and satisfy the requirements of our customers;
- We define, pursue and implement quality objectives. Quality objectives are formulated and reported on at the management review;
- We continuously develop and implement measures that will lead to improvement of the efficiency of the QMS;
- We require a level of relations with our partners and suppliers that meets our criteria for quality management;
- We stimulate and support each of us to fulfill our obligations under controlled working conditions.

The main criterion for the success of our organization are satisfied customers.

As the Manager of Gazki EOOD, I also declare my commitments to fulfill the requirements of the BDS EN ISO 9001:2015 standard, as well as to provide all resources for continuous improvement of the efficiency of the implemented quality management system.

Manager – Mark Gazki
