- Technical drawing of a roof cross-section showing insulation, waterproofing, and structural layers. The drawing includes dimensions and callouts for various components.
- Dimensions:**
- 100 (Horizontal distance between vertical lines)
 - 25 (Vertical distance between horizontal lines)
 - 10 (Vertical distance between horizontal lines)
 - 6 (Vertical distance between horizontal lines)
- Callouts:**
- 1, 2, 3 (Pointing to the top insulation layer)
 - 4, 5, 6 (Pointing to the bottom insulation layer)
 - 7, 8, 9 (Pointing to the structural layer)
 - Vertical Line (Galvanised Sheet) (Pointing to the vertical line)
 - INSIDE (Pointing to the interior side)
 - OUTSIDE (Pointing to the exterior side)

- Technical cross-section diagram of a roof assembly. The diagram shows a series of layers and components, numbered 1 through 9, with a 'Vertical Line (Galvanised Sheet)' label. Dimensions of 100 are indicated for the insulation and waterproofing layers. The diagram is labeled 'INSIDE' and 'OUTSIDE' at the bottom.
- Components and layers (from top to bottom):
- 1: Top structural layer (concrete/slab)
 - 2: Insulation layer (yellow, wavy pattern)
 - 3: Waterproofing layer (purple, wavy pattern)
 - 4: Vertical Line (Galvanised Sheet)
 - 5: Insulation layer (yellow, wavy pattern)
 - 6: Waterproofing layer (purple, wavy pattern)
 - 7: Insulation layer (yellow, wavy pattern)
 - 8: Waterproofing layer (purple, wavy pattern)
 - 9: Insulation layer (yellow, wavy pattern)
- Dimensions:
- 100: Thickness of the insulation layer (yellow, wavy pattern)
 - 100: Thickness of the waterproofing layer (purple, wavy pattern)
