2023

ANNUAL REPORT

Overall, during 2023, we managed to supply the defenders of Ukraine with the following:

| | | | |
|-----------------------------|---------------------------------|---|--|
| ≈70 vehicles | 30 optical devices | 12 tonnes of medical supplies | ≈20 generators, several of them with a capacity of 20 kW and above |
| 8 Mavic drones | 2 Kazhan drones | 3 tonnes of fuel for a rehabilitation centre | 20 air recirculators |

In addition, vehicles worth **over 5 million UAH** were repaired, and **thermal underwear, clothing, footwear, weapon magazines, tyres, food, water, and various types of equipment** were delivered on a targeted, needs-based basis.
