Questionnaire

Dear Customer, please complete attentively the Questionnaire for giving the Technical experts possibility to choose the most appropriate pump for your needs.

Company name _____

Address _____

Contact person _____

Phone number with city code _____ Fax _____

Final customer _____

Brand of the pumping unit _____

Supply m^3/hour , l/hour _____

Pump output pressure MPa, kg/sm^2 , m _____

Vacuum Suction Lift, m _____

Pump input pressure , kg/sm^2 _____

Electric engine (yes, no, power, explosion protection execution) _____

Pump type of working (continuously, periodic) _____

Starts quantity per day _____

Pumped liquid characteristics:

Liquid name _____

the % of contained chemical reagents _____

Temperature $^{\circ}\text{C}$ _____

Density kg/m^3 _____

Kinematic viscosity mm^2/s , _____

% / the % of contained of soli non-abrasive particles _____

Crystallization probability _____

Purchased units quantity, pcs. _____

Delivery terms are planned _____

Pump specific requirements _____

Responsible person position and signature

« ____ » _____ 20 ____ г.
