

InnaPrint

food tablet printers

InnaPrint brand food flatbed printers for printing on confectionery.

Print format A4 or Letter.

Have a built-in WiFi module that allows printing from mobile devices, and a scanner.

Power supply voltage 220V or 110V.

Food inks produced by Kopyform Germany are used.

Built-in continuous ink supply system.

12-month warranty.

Prints on: wafer, sugar and chocolate transfer paper, mastic, meringue, chocolate, pita bread, lollipops, macaroons, gingerbread, glaze, zephyr, marshmallow, bird's milk, eclairs, donuts, cakepops, trifles, mousse cakes and cakes.

Main differences from food flatbed printers from other manufacturers:

- Raising-lowering and moving the table using buttons.
- No need to constantly change or refill ink cartridges. Simply add food-grade ink to special containers. One refill is enough for approximately 2000 printed tables.
- The most compact with a print format up to A4.
- Automatic setting of the printing height using an optical sensor.
- Convenient paper fixation system.
- Modern design. Will fit into the interior of even a living room.

Together with the printer, you will get access to our Google Drive with ready-made popular pictures, fonts, recipes and recommendations for printing on various surfaces.

Name	Height of products to be printed	Printer dimensions, mm W x H x L	Wi-Fi and mobile printing capabilities	Automatic table height adjustment	Print area	Price, USD
