A Personal Message From Matthew Bray

Thanks for requesting a copy of our brochure. I'm Matt Bray, a cabinet maker who started making fitted furniture in 2001.

I wanted to help more people achieve the home of their dreams by making transformations more affordable. So, I developed a systematic approach to combine cabinet maker thinking and customisation with modern manufacturing. My unique system overcomes the limited range of options associated with many high-street brands, provides superior quality over flat-pack furniture, and opens up endless possibilities for style, size, shape, texture and colour.

Over the years, the business grew to encompass multiple trades, including electrical services, lighting, flooring, plastering and painting. Everything is managed with a single point of contact to complete projects faster, maintain quality, and provide our customers with clarity and peace of mind.

I can't wait to see how we can help.
