ABOUT US

FleeCozy is one of the largest manufacturers of woolen blankets and throws in Europe. We have been operating since 2003. We provide a full cycle - from raw material processing to packaging of finished products, controlling quality at every stage.

Our products are based on natural fibers: **100% wool**, including New Zealand sheep, merino, alpaca. We also use successful blends with acrylic, polyester or cotton to achieve the desired properties.

15+ international awards for quality and design, 40+ partner retail chains, 10+ export countries — this is the result of our systematic work and constant improvement.

We prove that Ukrainian textiles are synonymous with stability, aesthetics and trust. Each of our products is a story of responsible production, attention to detail and quality you can rely on.

CERTIFIED ENVIRONMENTAL AND QUALITY

At **FleeCozy**, we believe that true comfort starts with responsibility — to people, to materials, and to the environment. That's why every one of our throws, blankets, and shawls is made from natural fibers: New Zealand wool, merino wool, or alpaca — carefully selected for their softness, durability, and warmth.

We never add synthetics unless necessary. And if we do, for durability, it is always clearly stated on the label.

Our production has a full cycle and is certified in accordance with international quality and environmental standards. We are proud to have received

OEKO-TEX® Standard 100 — confirmation of the safety of our fabrics

Each product goes through over 40 stages of quality control, with every thread and every seam carefully checked by experts. This is how we ensure that what reaches your hands is not just a textile — but a touch of care, craftsmanship, and consistency.

We know we're not changing the world. But if we can make one evening cozier, or one morning feel softer — that's already something worth weaving into.

FleeCozy — comfort with conscience.
