

INDEPENDENT AUDITOR'S REPORT

from the audit of the financial statements as of 31 December 2023

ESKA Finance s.r.o.

Tomášikova 1973/32 811 09 Bratislava

This is an English language translation of the original Slovak Auditor's Report to the accompanying financial statements translated into English language.

INDEPENDENT AUDITOR'S REPORT

To the Owners and Management of ESKA Finance s.r.o.

Opinion

We have audited the financial statements of ESKA Finance s.r.o. (the "Company"), which comprise the balance sheet as at 31 December 2023, and the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2023, and its financial performance for the year then ended in accordance with the Act on Accounting No. 431/2002 Coll. as amended (the "Act on Accounting").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the provisions of Act No. 423/2015 Coll. on Statutory Audit and on Amendment to and Supplementation of Act No. 431/2002 Coll. on Accounting, as amended (hereinafter the "Act on Statutory Audit") related to ethical requirements, including the Code of Ethics for Auditors that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other matters

The financial statements of Company for the year ended 31 December 2022 were audited by another auditor who expressed an unmodified opinion on those statements on 20 December 2023.

The Company does not meet the criteria for the mandatory audit of the financial statements in accordance with the Act on Accounting, therefore does not have to prepare an Annual report. The Company decided for voluntary audit of the financial statements.

Responsibilities of Management

Management is responsible for the preparation of the financial statements to give a true and fair view in accordance with the Act on Accounting, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but

knowing you. Strana 2 z 3

is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Management about, among other things, the planned scope and timeline of the audit and about significant audit findings, including any significant internal control deficiencies that we discover during our audit.

Bratislava, 8 April 2024

Article I General Information

1. Identification of the entity (name, ID No., registered office):

Title:	ESKA Finance s.r.o.,
Company ID:	54 430 950
Residence:	Tomášikova 1973/32, 831 04 Bratislava

Hereinafter the "Company". The "Company's" business: rental of movable property, financial leasing, purchase of goods with a view to their sale to the final consumer (retail) or other trade operators (wholesale), intermediary activities in the field of trade, services, production.

2. Information about the consolidated group: The company is not part of the consolidated group.

3. Average recalculated number of employees:

Title	Current accounting period	Immediately preceding accounting period
Average recalculated_number of employees	2,5	1

Article II Information on the accounting policies

1. Basis for the preparation of financial statements

The financial statements were prepared under the assumption that the Company will continue its activities as a going concern.

Accounting policies and general accounting policies have been consistently applied by the entity.

In the 2023 financial year, the Company has not made any corrections to material errors of past financial years.

2. Method of valuation of individual items of assets and liabilities

<u>Fixed assets</u> purchased are valued at cost, which includes the acquisition price and costs related to the acquisition (customs, transport, assembly, insurance, etc.).

The acquisition price of tangible fixed assets does not include interest from foreign sources or realized exchange differences that have arisen up to the moment of putting the tangible fixed assets into use.

Notes PODV 3-01	Company ID:	VAT	number:
	54 430 950	212168	7964

The acquisition price of intangible fixed assets does not include interest from foreign sources that have arisen up to the moment of putting intangible fixed assets into use.

Self-generated fixed assets are valued at their own costs. Own costs are all direct costs incurred for production or other activity and indirect costs related to production or other activity.

Research costs are not activated, they are charged to the costs of the accounting period in which they are incurred. Development costs are accounted for in the period in which they are incurred, but those development costs that relate to a clearly defined product or process, where technical feasibility and sales can be demonstrated and the company has sufficient resources to complete the project, sell it or internally exploit its results, are activated, amounting to: which is likely to be recovered from future economic benefits.

Activated development costs are depreciated for a maximum of 5 years, namely in those accounting periods in which the sale of the product or the use of the process is expected. If they decrease in value, they are written off to the amount that is likely to be recovered from future economic benefits.

3. Methods of drawing up a depreciation plan

Depreciation of non-current intangible assets is determined based on the estimated period of its use and the expected course of its wear. Depreciation begins on the first day of the month following the putting into use of fixed assets. Small intangible fixed assets with a purchase price (or own costs) of EUR 2 400 or less are depreciated once upon commissioning. Estimated period of use, depreciation method and depreciation rate are shown in the table:

	Estimated Duration of use in years	Method Depreciation	Annual depreciation Rate in %
Activated development costs	5	Linear	20
Software	4	Linear	25
Valuable rights (license)	8	Linear	12,5
Small intangible fixed assets	Varies	One-time depreciation	100

Depreciation of fixed tangible assets is determined based on the estimated period of its use and the expected course of its wear. Depreciation begins on the first day of the month following the putting into use of fixed assets. Small fixed tangible assets with acquisition price (or own costs) of EUR 1 700 or less are depreciated once when put into use. Land is not depreciated. Estimated period of use, depreciation method and depreciation rate are shown in the table:

	Estimated Duration of use in years	Method Depreciation	Annual depreciation Rate in %
Building	40	Linear	2,5
Machinery, apparatus and equipment	8 to 12	Linear	8,3 to 12,5
Vehicles	4 to 6	Linear	16 to 30
Small fixed tangible assets	Varies	One-time depreciation	n 100

	i i		1	$\overline{}$
Notes PODV 3-01		Company ID:	VAT	number:
		54 430 950	2121687964	

4. Method of measurement of individual items of other assets and liabilities

<u>Securities and shares</u> (excluding trading securities) are valued at cost including acquisition costs. Impairment of the value of securities and shares is deducted from the cost.

Trading securities are valued at fair value when they are acquired.

<u>Inventories</u> are valued at the lower of the following: purchase price (purchased inventories) / own cost (internally generated inventories) or net realizable value.

The purchase price includes the cost of inventories and costs related to acquisition (customs, transport, insurance, commissions, discount, etc.). Interest on foreign sources is not part of the purchase price. Purchased inventories are valued at the weighted average of cost purchases.

Own costs include direct costs (direct materials, direct wages and other direct costs) and part of the indirect costs directly related to the inherent stockpiling (production overheads). Production overheads are included in own costs depending on the degree of work-in-progress of these stocks. Management expenses and selling costs are not part of own costs. Own costs do not include interest on foreign sources.

Net realizable value is the estimated selling price less the estimated cost of completing them and the estimated costs associated with their sale.

The decrease in the value of inventories is taken into account by creating a provision.

<u>Receivables</u> at their inception are valued at their nominal value; claims assigned and receivables acquired by contribution to share capital are valued at cost, including acquisition costs. This valuation is reduced by dubious and uncollectible debts.

<u>Cash and valuables</u> are valued at their nominal value. The write-down of their value shall be subject to a provision.

<u>Provisions</u> are liabilities with an indefinite time limit or amount; they are formed to cover known risks or losses from the business. They are valued at the expected amount of the liability.

<u>Liabilities</u> at their inception are valued at nominal value. Liabilities on assumption are measured at cost. If the inventory reveals that the amount of the liabilities is different from their amount in the accounts, the liabilities in the accounts and in the financial statements shall be disclosed in the valuation observed.

5. Information on subsidies

The entitlement to subsidies from the state budget is accounted for if it is almost certain that all the conditions related to the subsidy will be met and at the same time that the subsidy will be provided.

Notes PODV 3-01	Company ID:	VAT	number:
	54 430 950	2121687964	

Grants for the economic activity of the Company are initially recognized as deferred income and dissolved into the income statement as income from economic activities as and when the costs are incurred for the respective purpose.

Grants on the acquisition of tangible fixed assets and intangible fixed assets are initially recognized as deferred income and dissolve into the income statement in time and substance with the recognition of depreciation on those fixed assets.

6. The Company did not account for errors for prior period errors in the current accounting period showing the impact on retained earnings of previous years or accumulated losses of previous years. At the same time, it has not accounted for immaterial errors of past accounting periods in the current accounting period that would have an impact the profit or loss of the current accounting period.

Article III.

Information explaining and supplementing the balance sheet and income statement

1. The Company reports all its financial obligations on the balance sheet. No exceptional events have occurred in the reporting financial period that would affect the recognition of individual items of expense or income.
