雪晶岩石 RB01

创意源于意大利七千万年自然遗产的多洛米蒂山脉，白雪连绵，日照金山，景观独特，高度非凡，如同漫步在上帝的后花园，每一处都是大自然的惊艳。法国建筑大师、功能主义之父勒·柯布西耶称赞多洛米蒂是大自然最美的建筑杰作。

本系列把多洛米蒂岩石的坚硬挺拔写进作品，洁白无瑕的雪山及日照金山的奇观展现在现代奢华的厨房里，令人着迷。

The creativity originates from the Dolomites Mountains, a natural heritage of Italy 70 million years ago. The snow is rolling, the sunshine is golden, the landscape is unique, and the height is extraordinary. It is like walking in the back garden of God. French architect Le Corbusier, the father of functionalism, praised the Dolomites as the most beautiful architectural masterpiece in nature. In this series, the hardness and straightness of the Dolomites are written into the products, and the spectacle of the white and flawless snow-capped mountains and the sunshine and golden mountains are displayed in a modern and luxurious kitchen, which is fascinating.
